BRACKET CONTROL

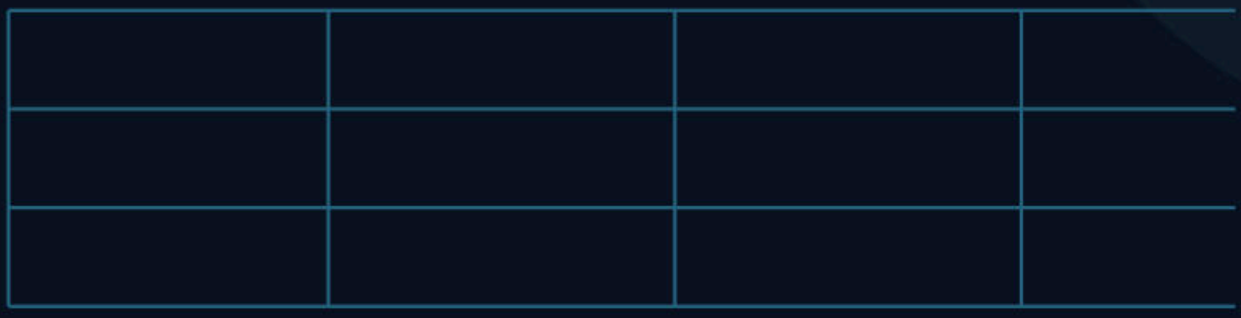

CAPTAIN USER GUIDE / 01

Registering a new team

A step-by-step guide to entering a competitive team in a Bracket Control tournament through Discord.

8 steps | Discord + Web App | Captain workflow

Submission requires administrator approval

START HERE

Open the #team-registration channel in your community's Discord server, then follow the registration link.

GETTING STARTED

Find the team registration channel

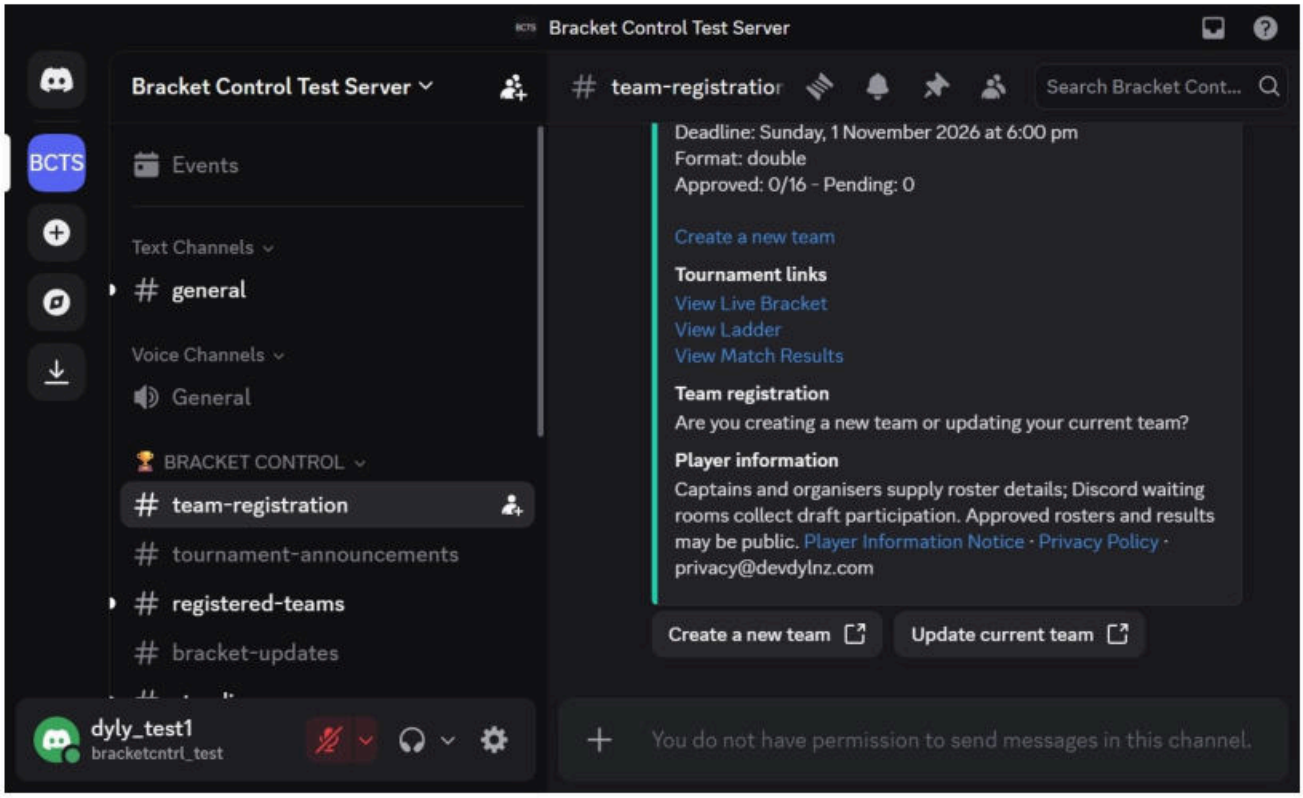

Begin in the Discord community where your tournament is hosted.

1 Open Discord

Sign into the Discord account you will use as team captain.

2 Select #team-registration

Open the community server and choose the team-registration text channel.

Screenshot from the Bracket Control registration workflow

USE THE TEAM CHANNEL

Use #team-registration to register or update a team. Global Player Registration uses a different channel and process.

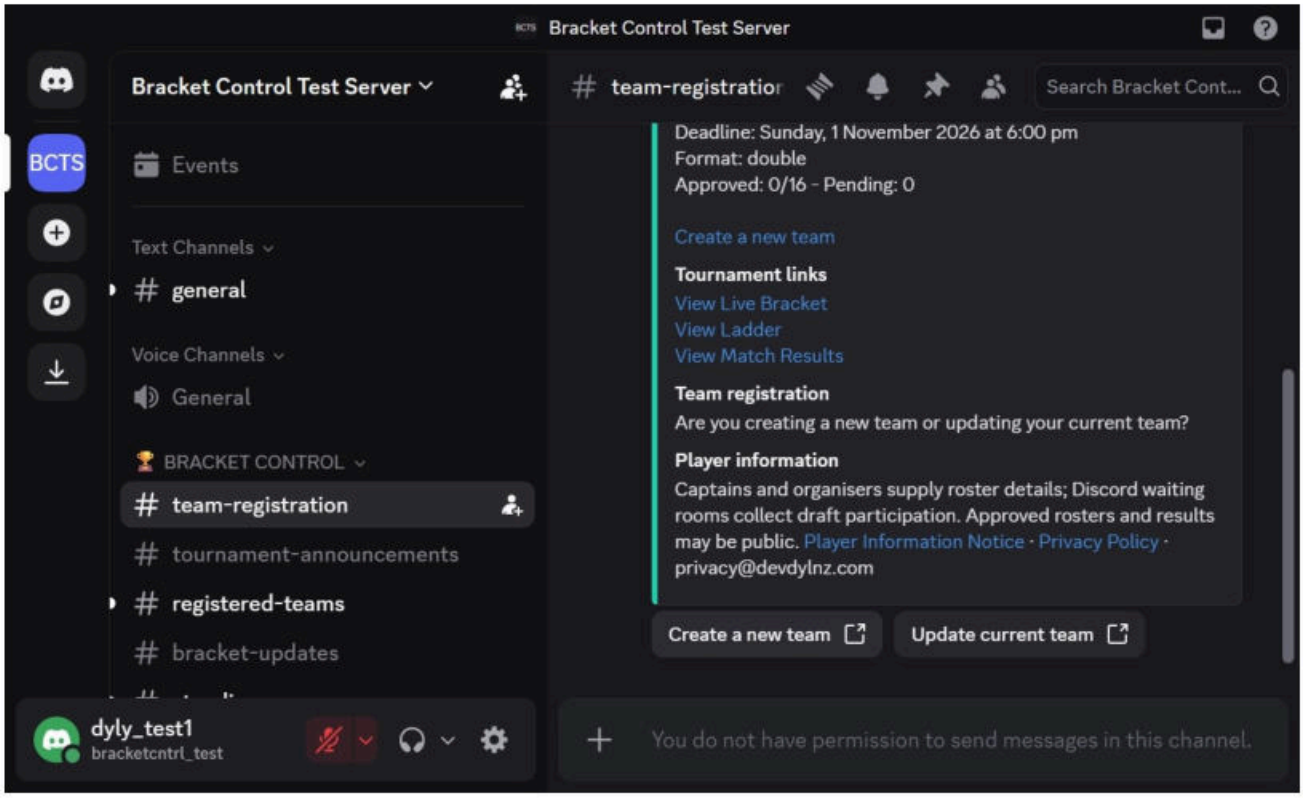

OPEN THE REGISTRATION FORM

Start a new team registration

The Discord message links directly into the Bracket Control Web App.

3 Click “Create a new team”

In the registration message, select the new-team button. Sign in with Discord if requested.

Screenshot from the Bracket Control registration workflow

NEW OR EXISTING TEAM?

To update a previously created team, use “Update current team” instead of creating a duplicate registration.

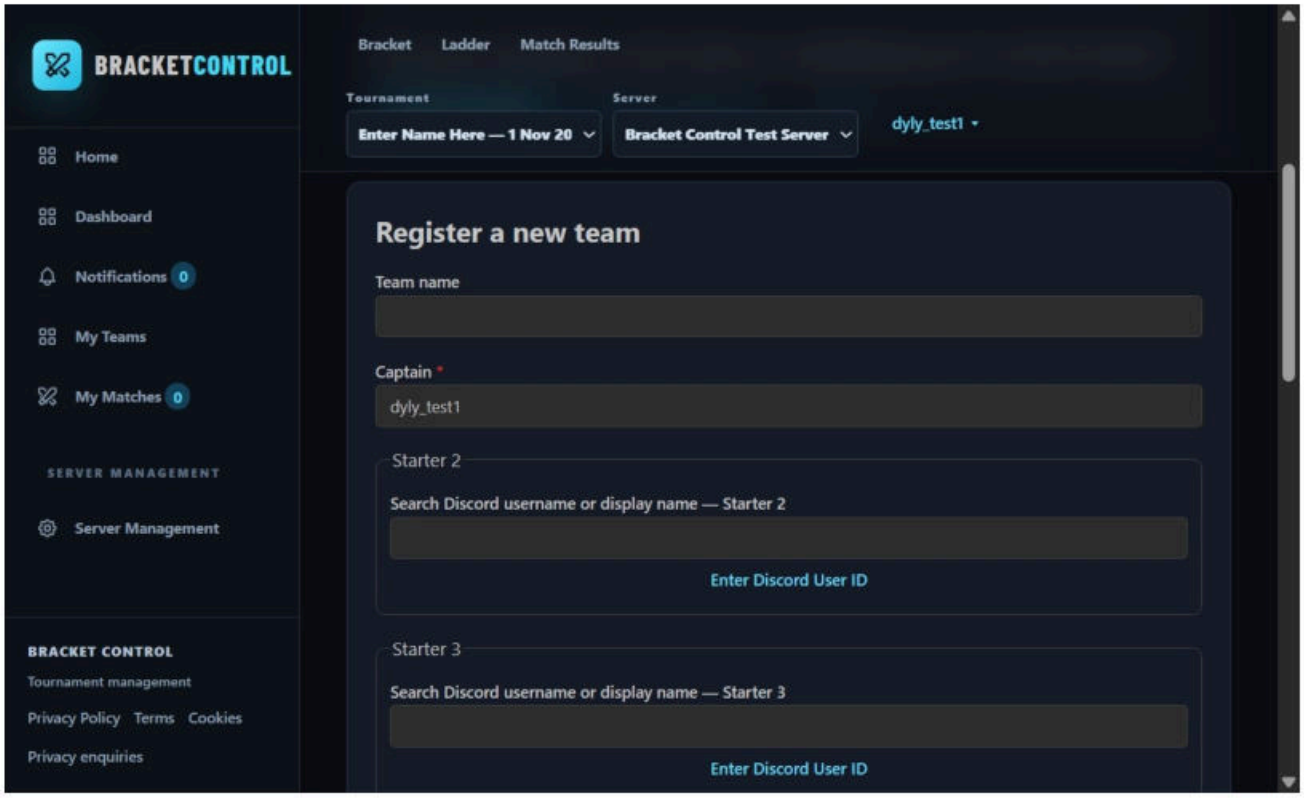

TEAM DETAILS

Enter your team name

Confirm the correct tournament and Discord server are selected.

4 Complete the “Team name” field

Enter the name of the team that will appear in the registration and approval process.

CAPTAIN IDENTIFIED

The registration form shows the signed-in captain. Check that the correct Discord account and tournament are selected.

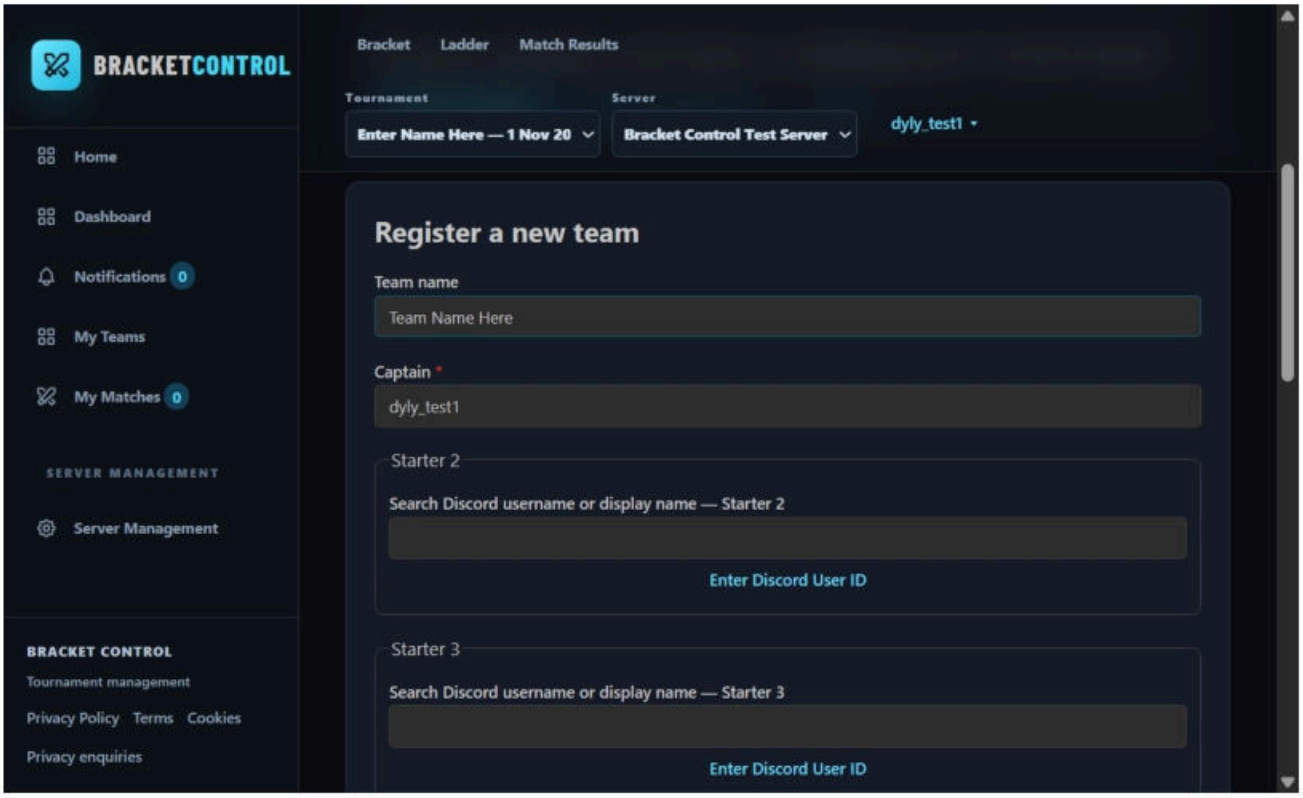

STARTING ROSTER

Add your starting players

Use Discord player search to assign each starter position.

5 Search for each teammate

Enter a Discord username or display name in each starter field and select the correct result. If a player cannot be found, use “Enter Discord User ID”.

Screenshot from the Bracket Control registration workflow

CHECK THE SELECTED ACCOUNT

Confirm each player's chosen Discord account before submission. Searching by display name alone may show similar names.

SUBSTITUTE ROSTER

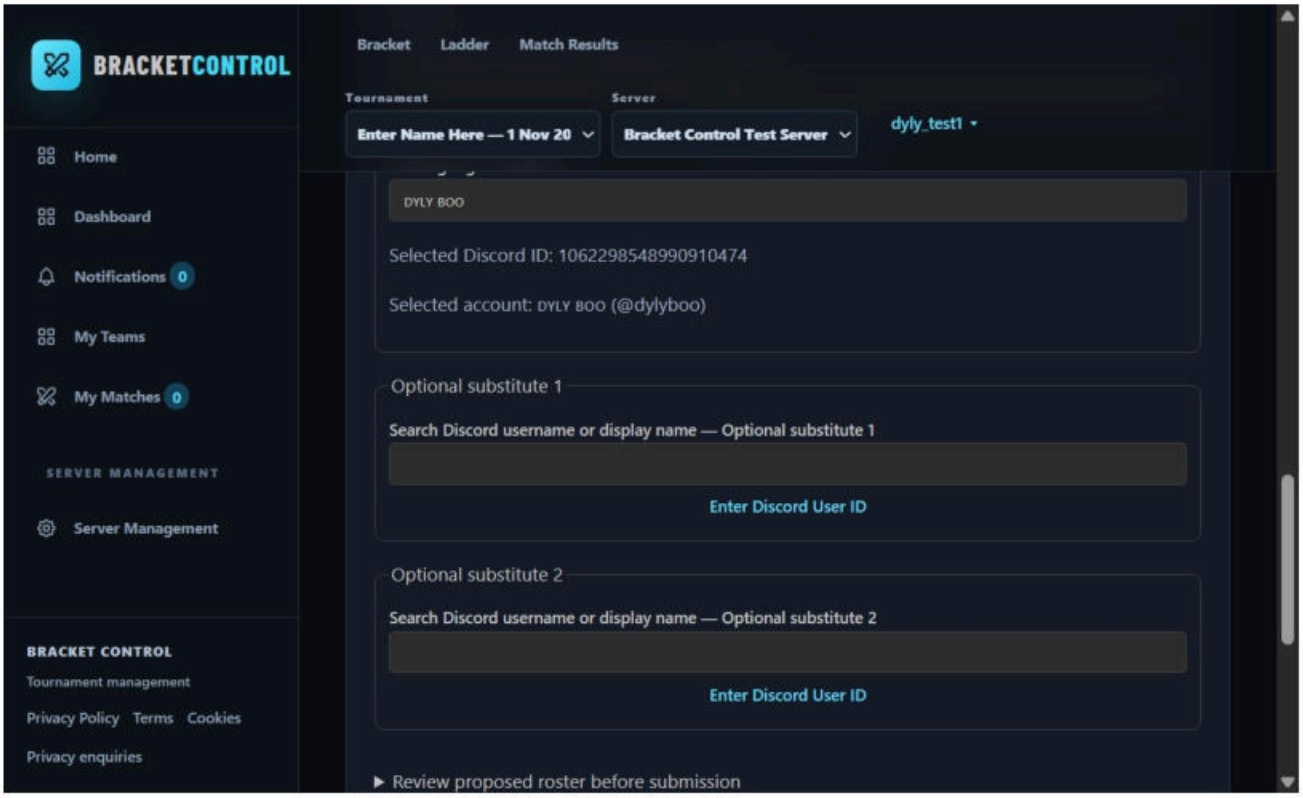

Add substitutes if needed

Optional substitutes can be entered as part of the team roster.

6

Enter any substitute players

Find each substitute using Discord search or the User ID option when needed. Leave optional substitute fields empty if none are required.

Screenshot from the Bracket Control registration workflow

REVIEW YOUR ROSTER

Before proceeding, expand “Review proposed roster before submission” and check the captain, starters and substitutes.

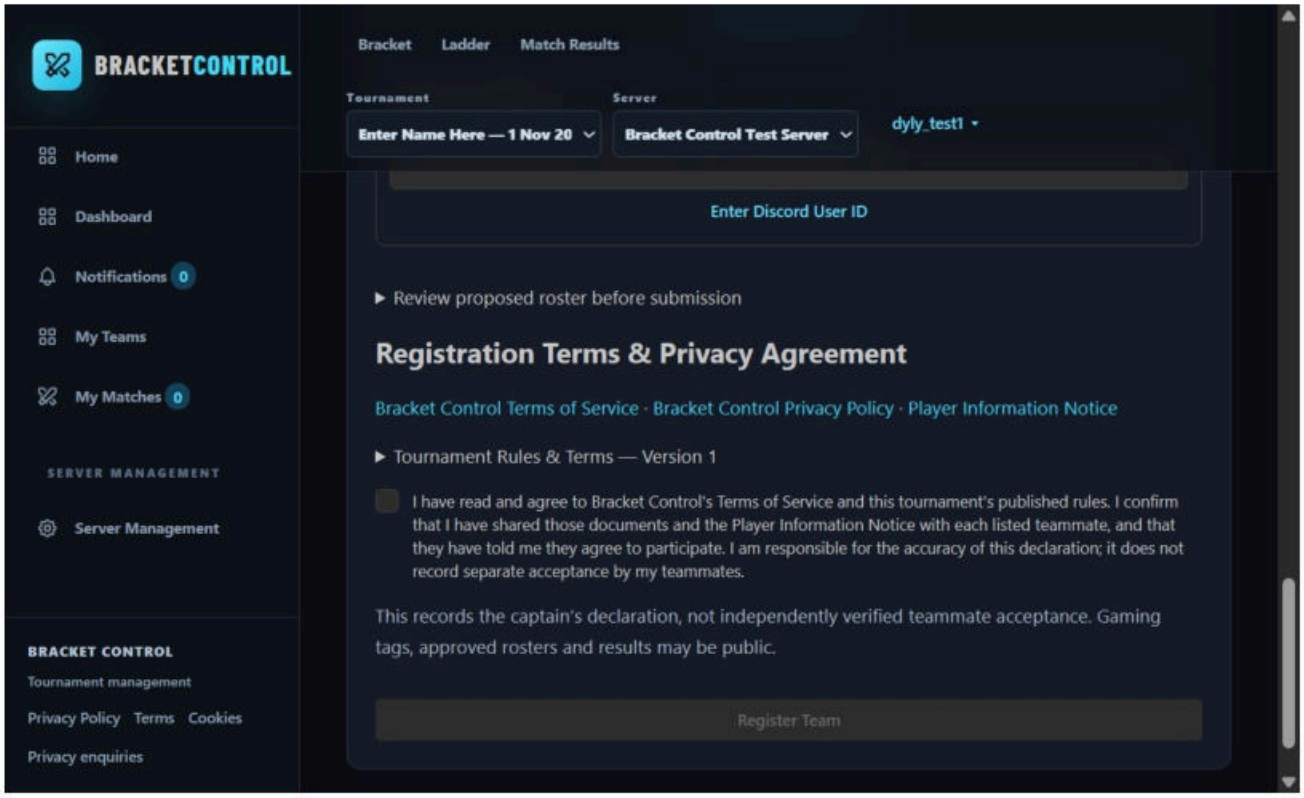

TERMS AND PLAYER NOTICE

Review and acknowledge the terms

The captain makes the required declaration before submitting the roster.

7 Read the documents and tick the agreement

Review the Terms of Service, Privacy Policy, Player Information Notice and tournament rules. Confirm you have shared the documents with each teammate and they have agreed to participate.

Screenshot from the Bracket Control registration workflow

IMPORTANT: THIS IS A CAPTAIN DECLARATION

This checkbox records the captain's statement; it does not record independent acceptance by each teammate. Follow any personal registration or rules-acceptance requirements for the tournament.

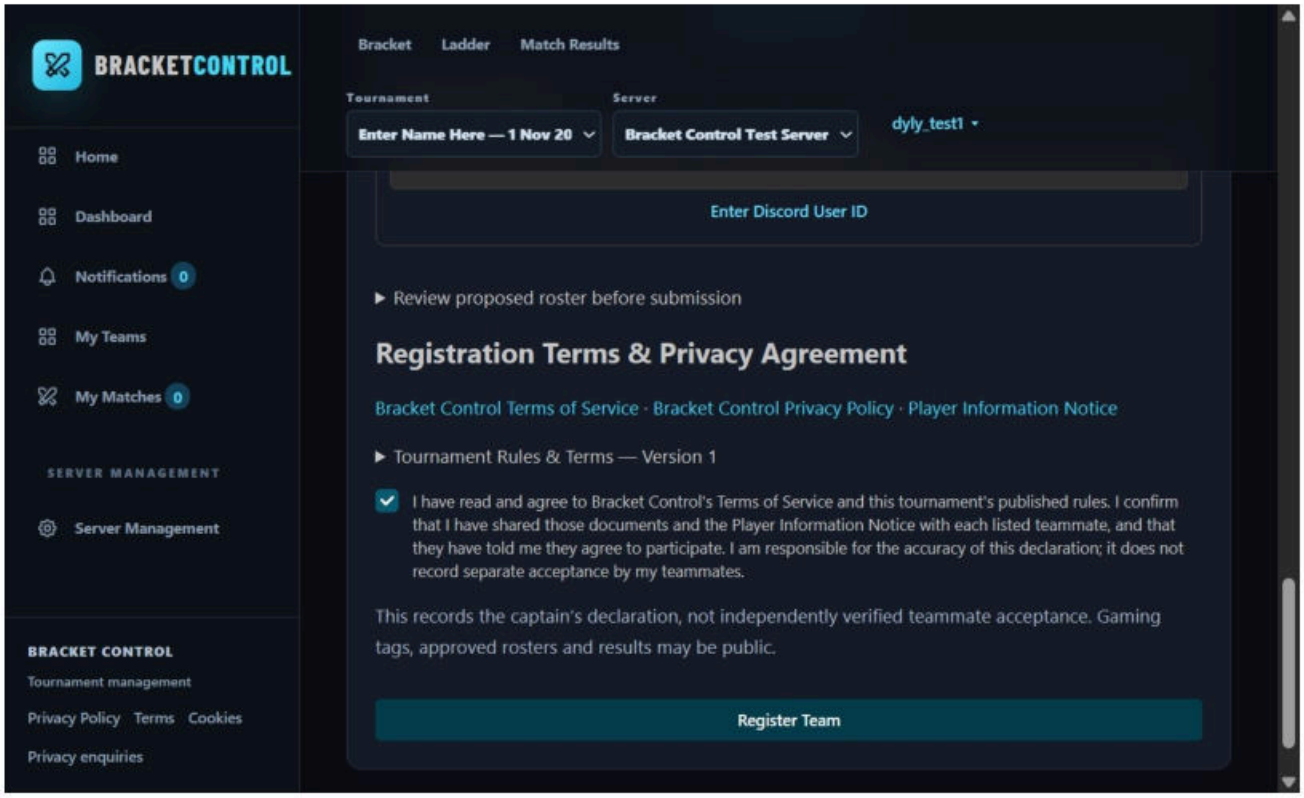

SUBMIT TEAM REGISTRATION

Register your team

Submit the completed roster for review by the tournament administrators.

8 Click “Register Team”

Once the required fields and agreement are complete, select the registration button to submit the team.

Screenshot from the Bracket Control registration workflow

SUBMISSION IS NOT APPROVAL

Each team requires administrator review and approval. A submitted team is not automatically approved or confirmed in the tournament.
