BRACKET CONTROL

ADMINISTRATOR USER GUIDE / 02

Create a new tournament

A visual walkthrough of the Bracket Control tournament creation workflow — from event basics and scheduling to rules, Discord publishing and final review.

30 ORIGINAL SCRIBE STEPS • SCREENSHOTS FROM BRACKET CONTROL

BRACKET CONTROL

GUIDE OVERVIEW

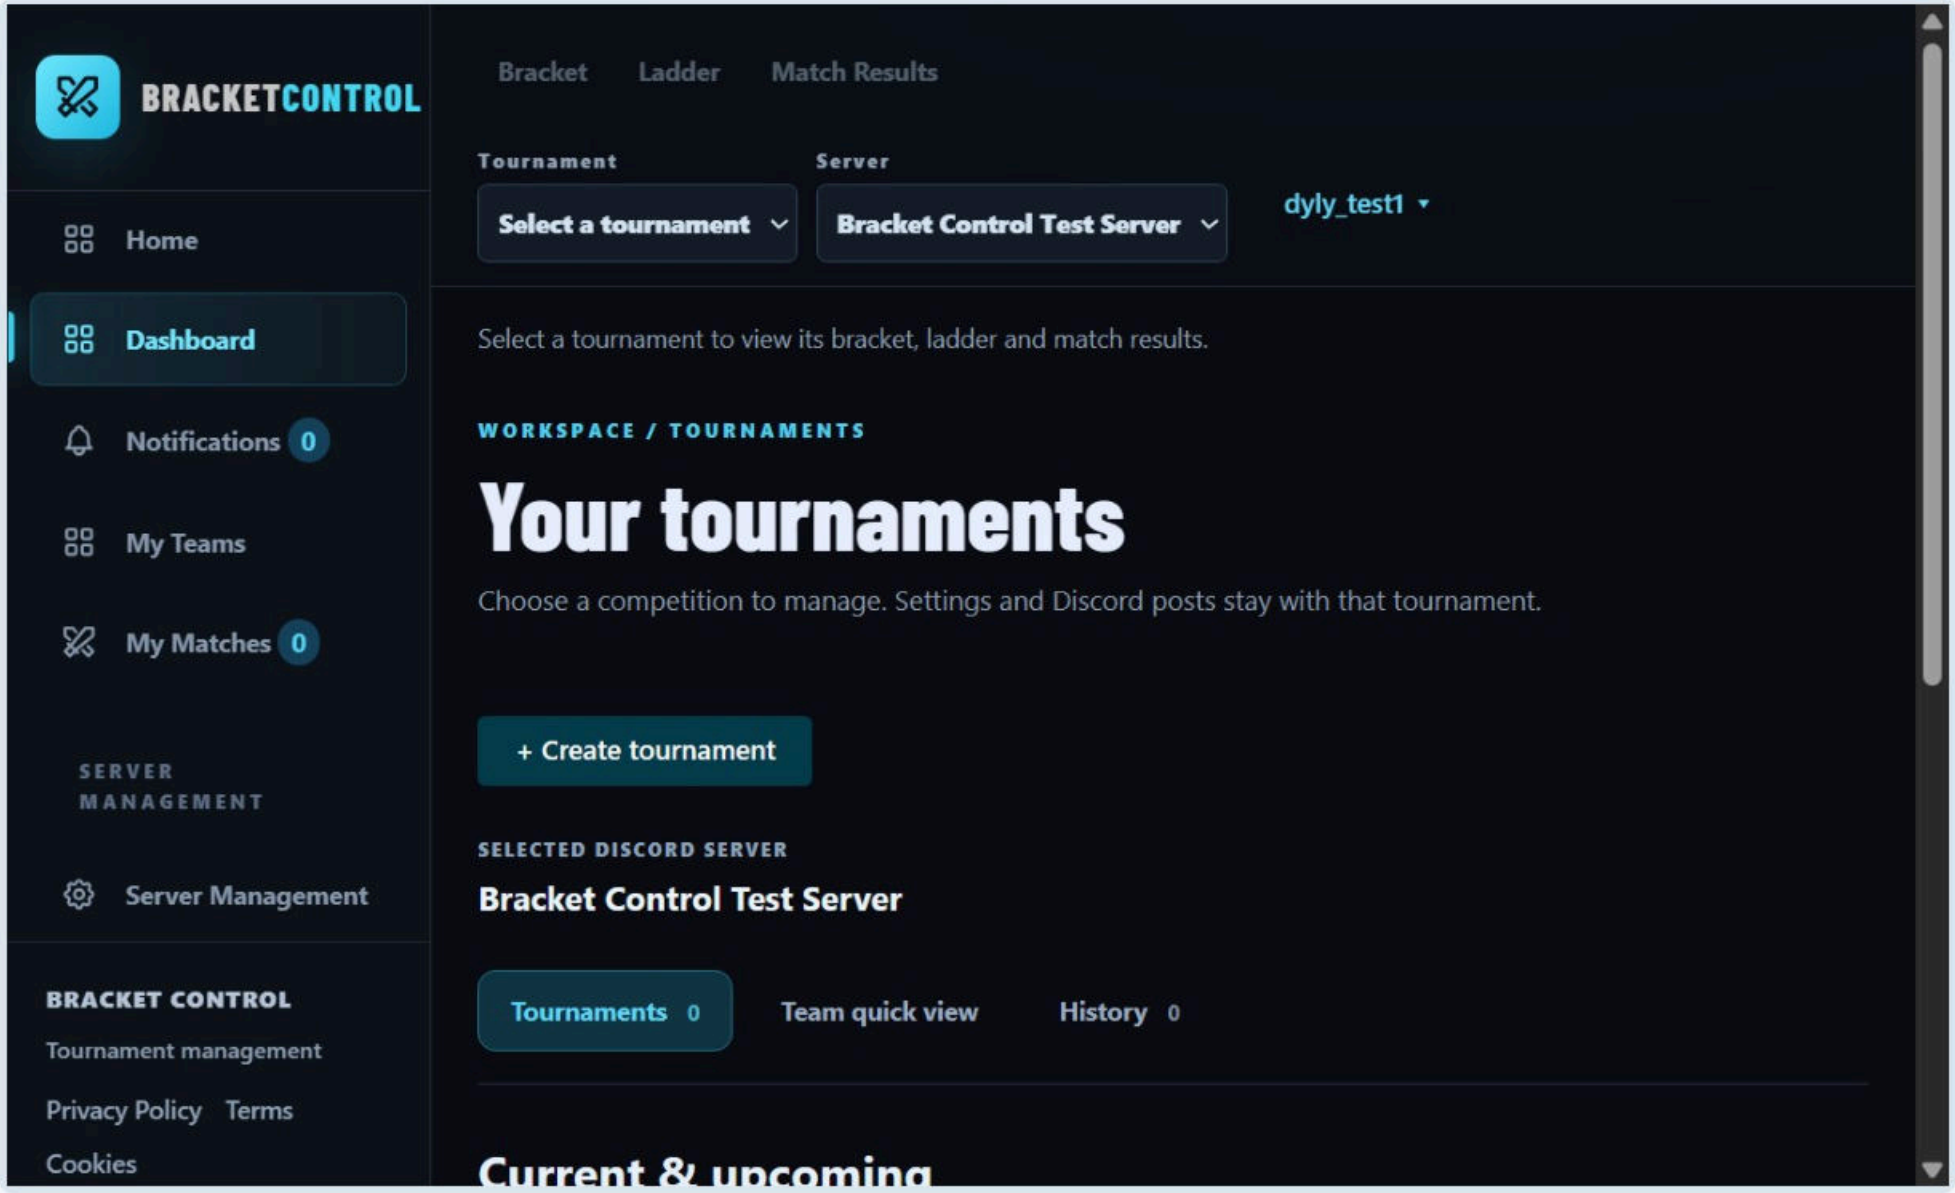

YOUR WORKFLOW AT A GLANCE

01	**Tournament basics** Name, bracket format, team limit and participation options	Steps 1–9
02	**Schedule & registration** Timezone, event timing, registration window and weekly return	Steps 10–18
03	**Tournament rules** Write and preview the rules competitors will see	Steps 19–22
04	**Discord delivery** Review the destinations for tournament-related posts	Steps 23–24
05	**Final review** Confirm locked settings, create and locate your event	Steps 25–30

Open tournament creation

Open Bracket Control in your Discord server workspace, then select **+ Create tournament**.

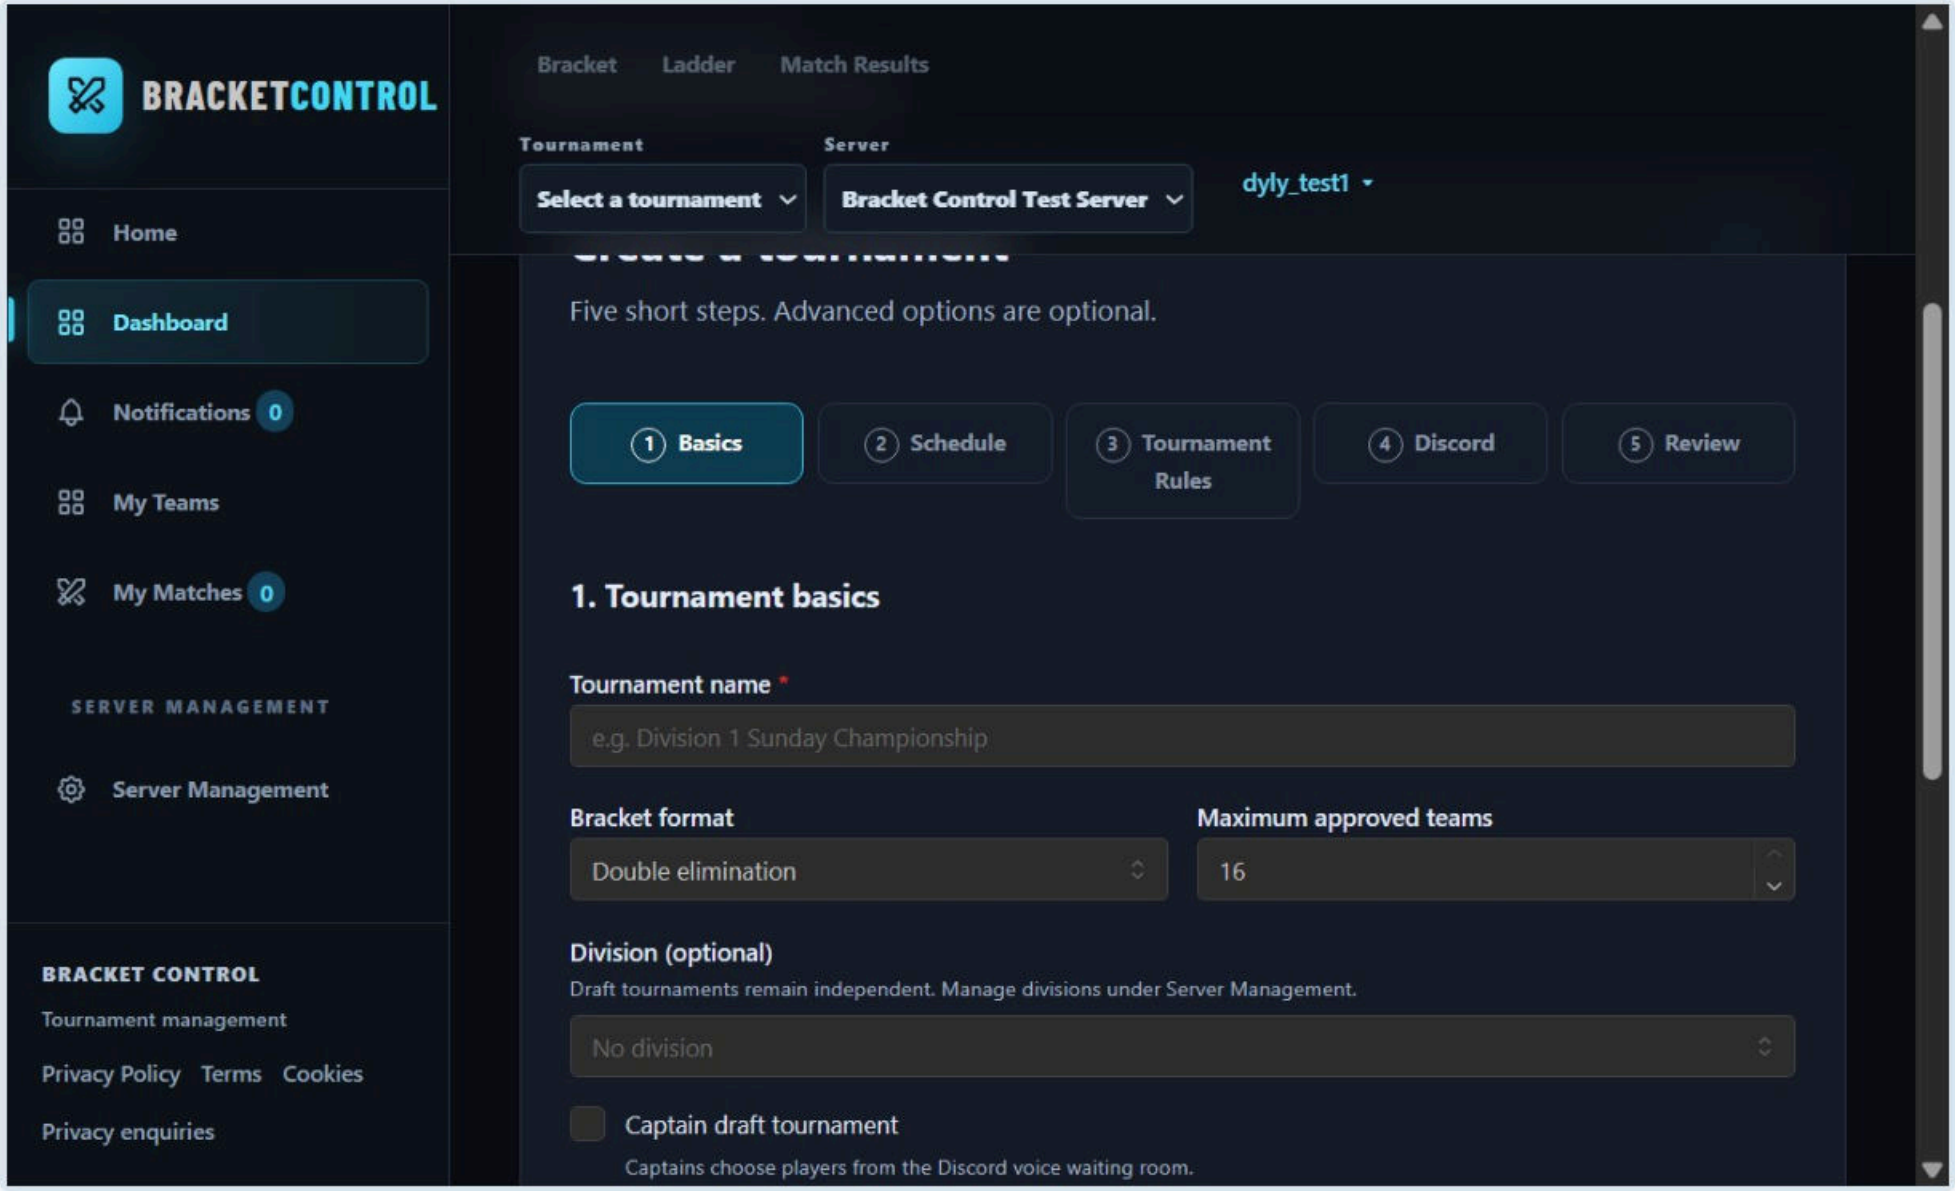

STEP 01-02

Name your tournament

Select **Tournament name** * and enter a clear event name. The capture uses “Enter Name Here” as an example.

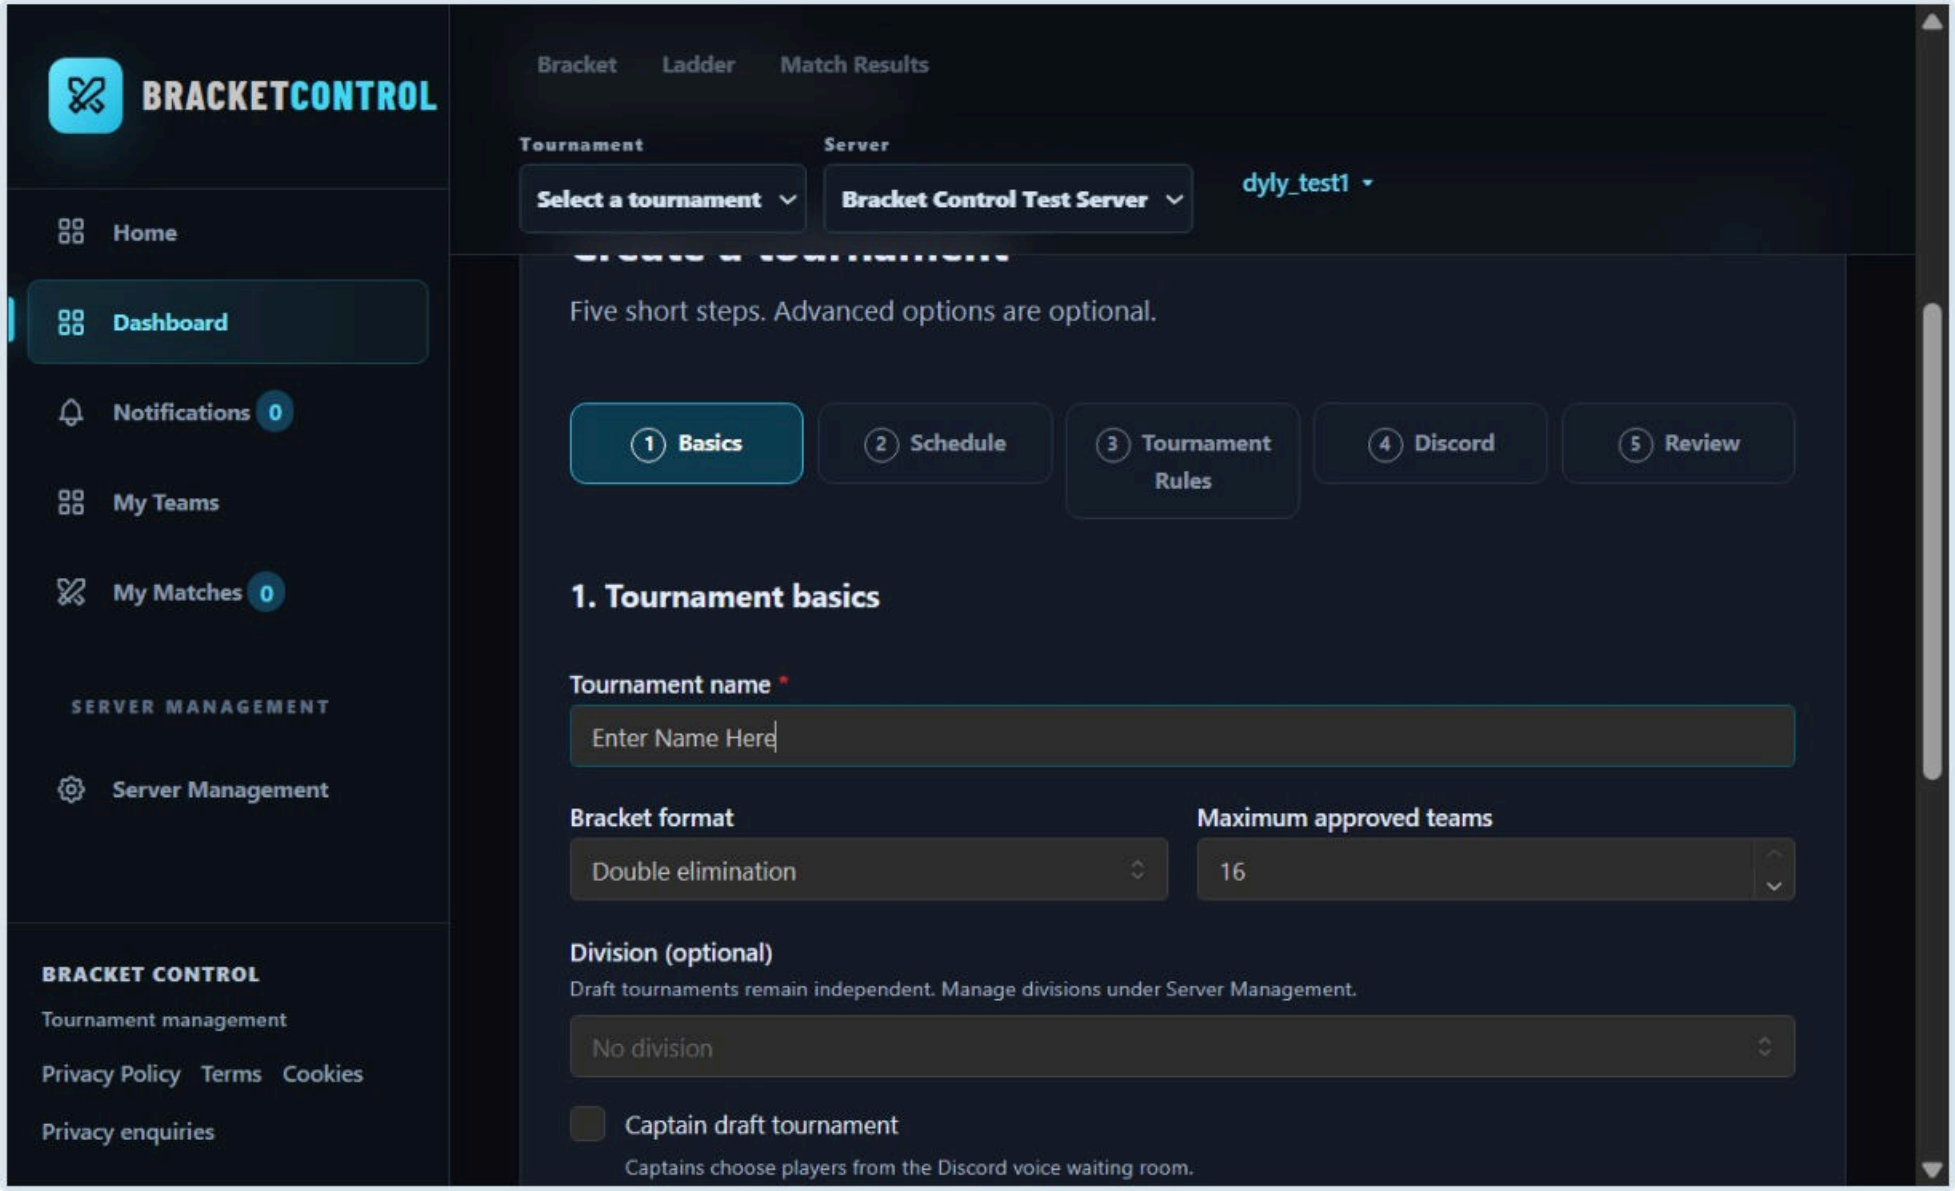

STEP 03-04

Choose the bracket format

Open **Bracket format** and choose the competition structure you want to run.

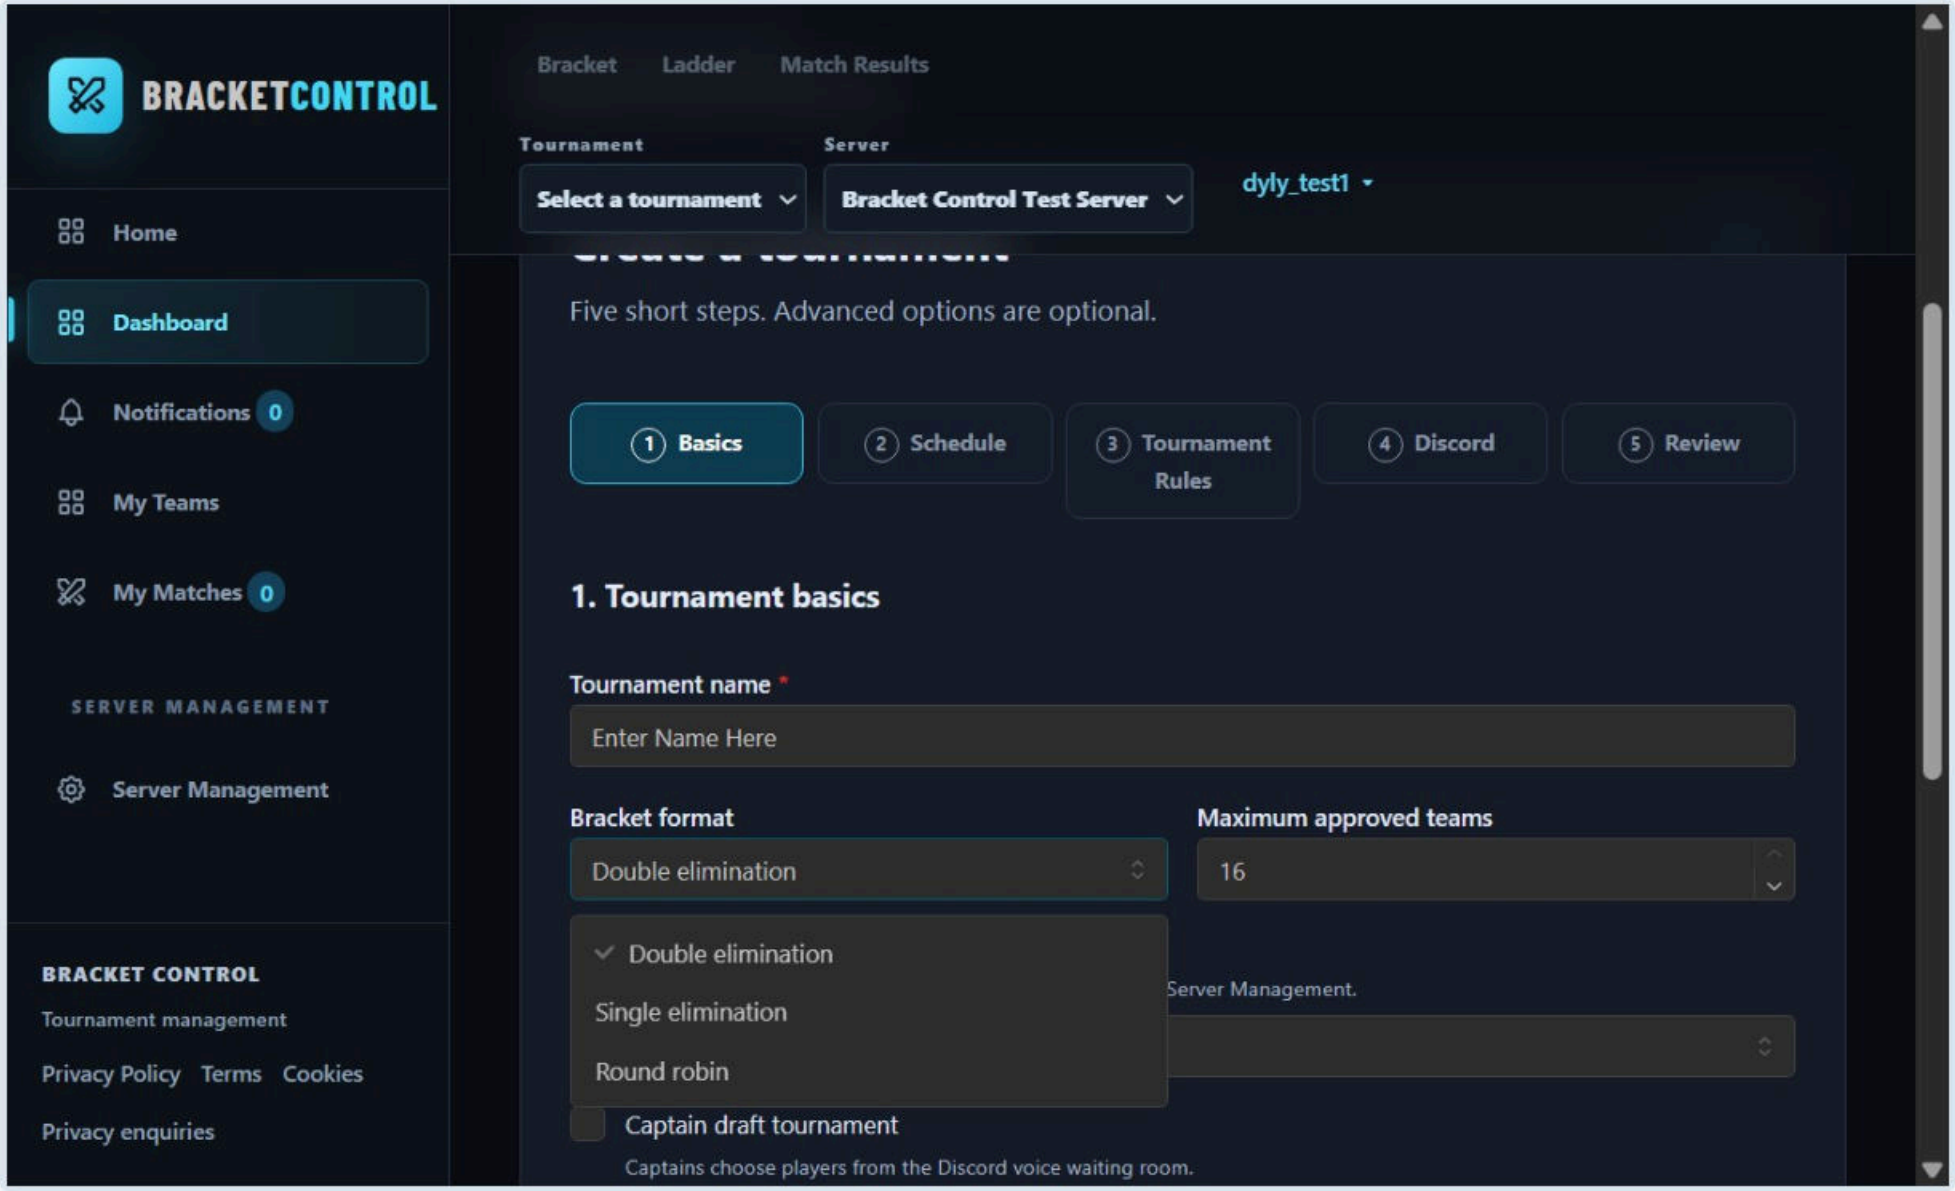

STEP 05

Set maximum approved teams

Enter the maximum number of approved teams allowed to participate.

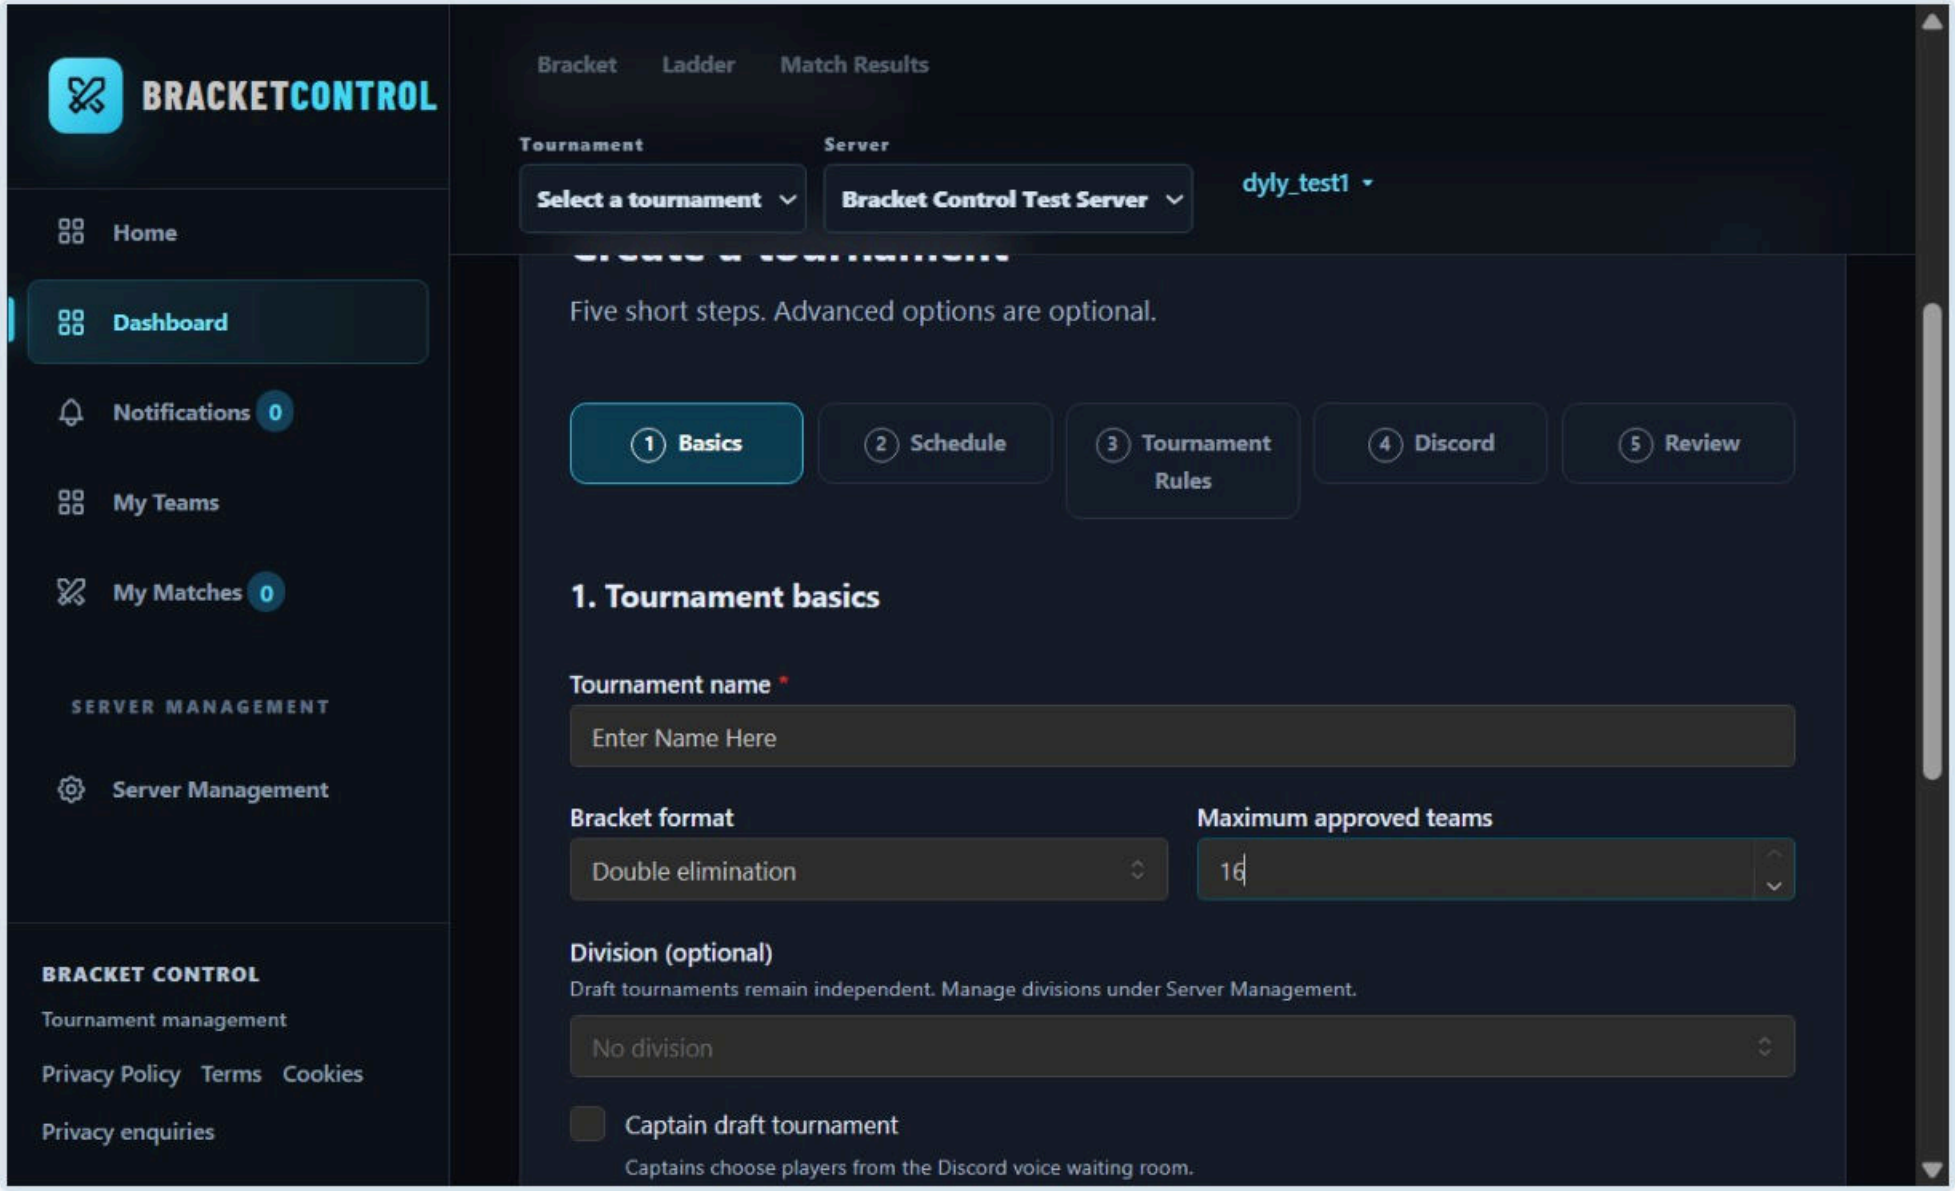

STEP 06

Assign a division if needed

Choose **Division (optional)** when this event belongs to an existing division, or leave it unassigned.

STEP 07

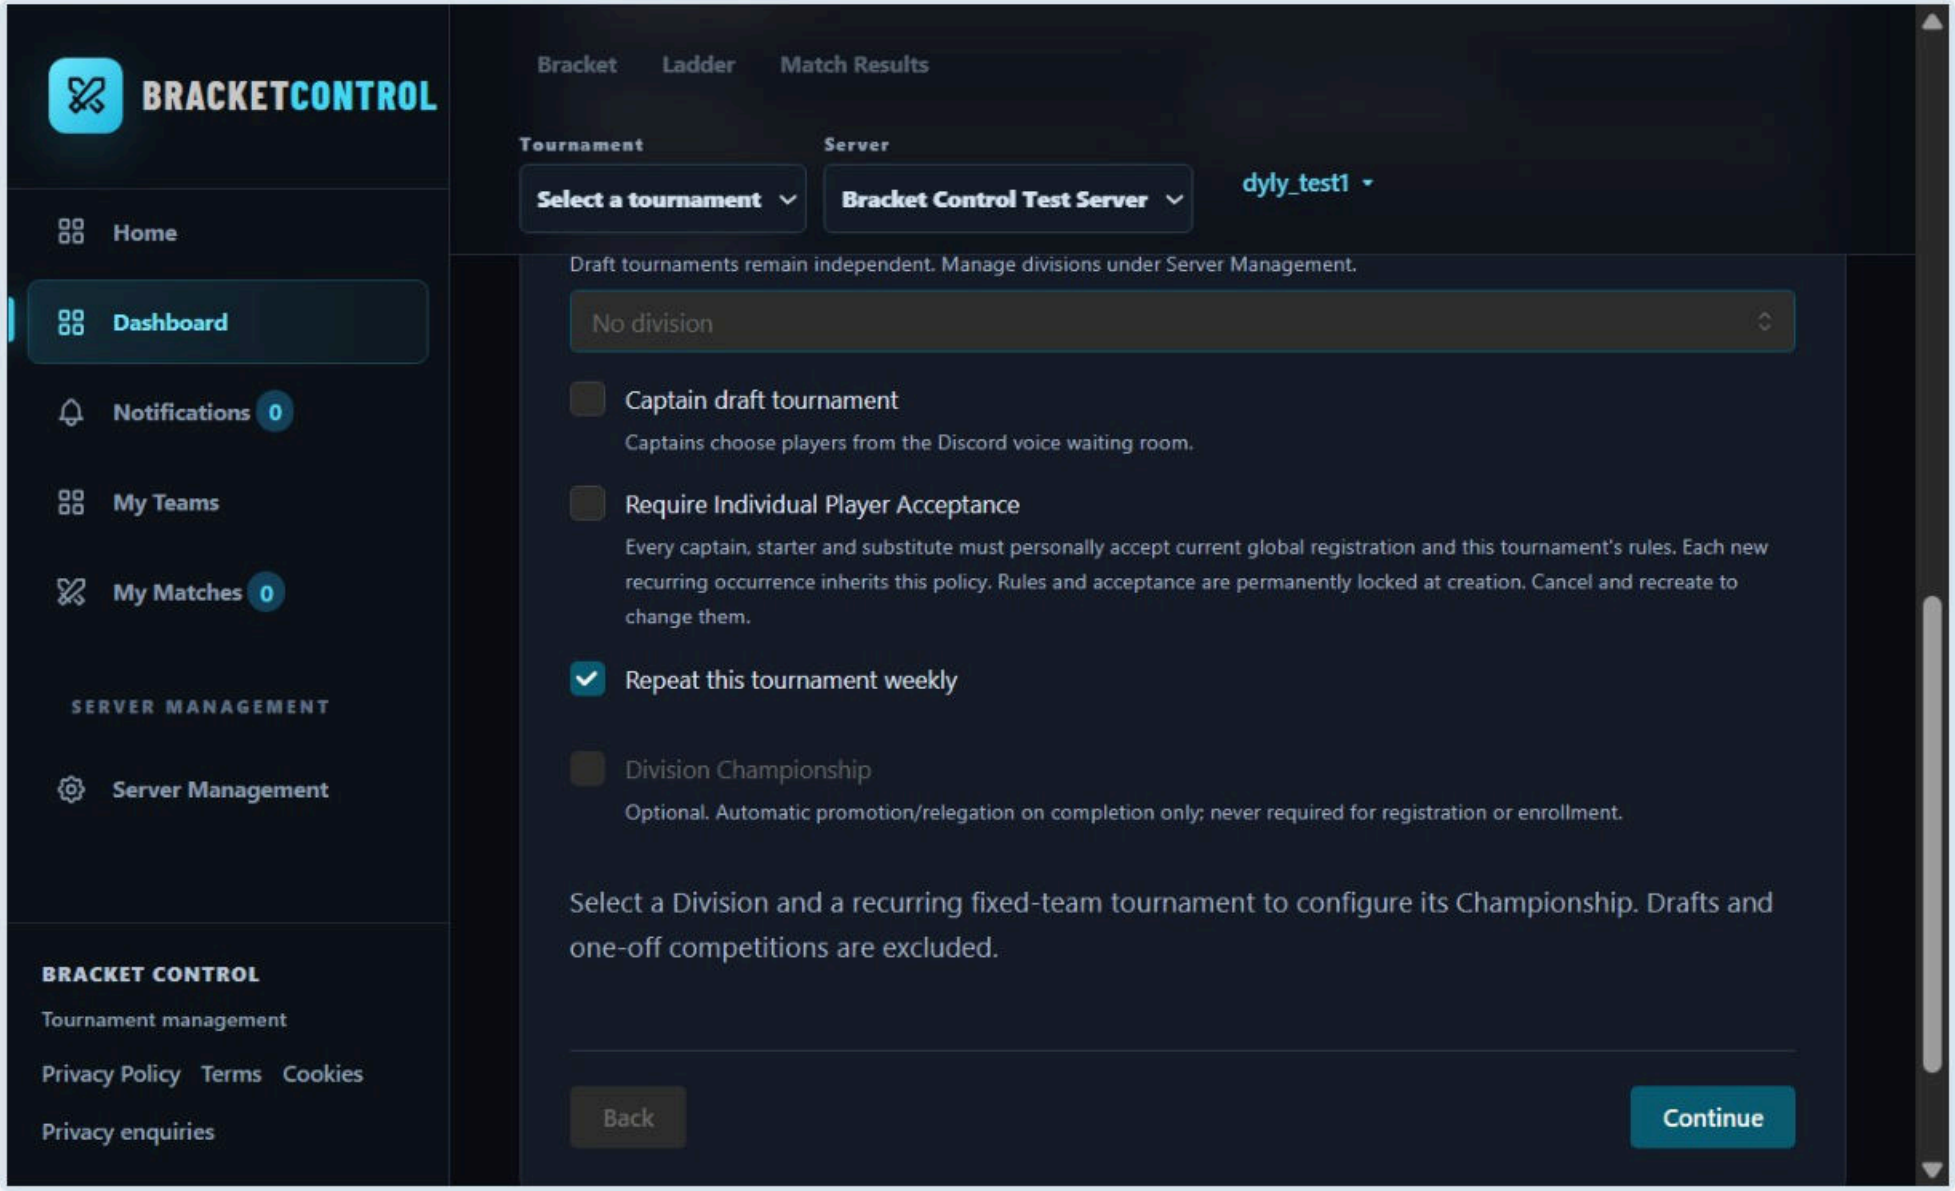

Choose participation requirements

Review **Require Individual Player Acceptance** and the weekly-repeat option. Choose the requirements for your event, then select **Continue**.

Individual acceptance is a per-player requirement. The rules and acceptance policy are locked after tournament creation.

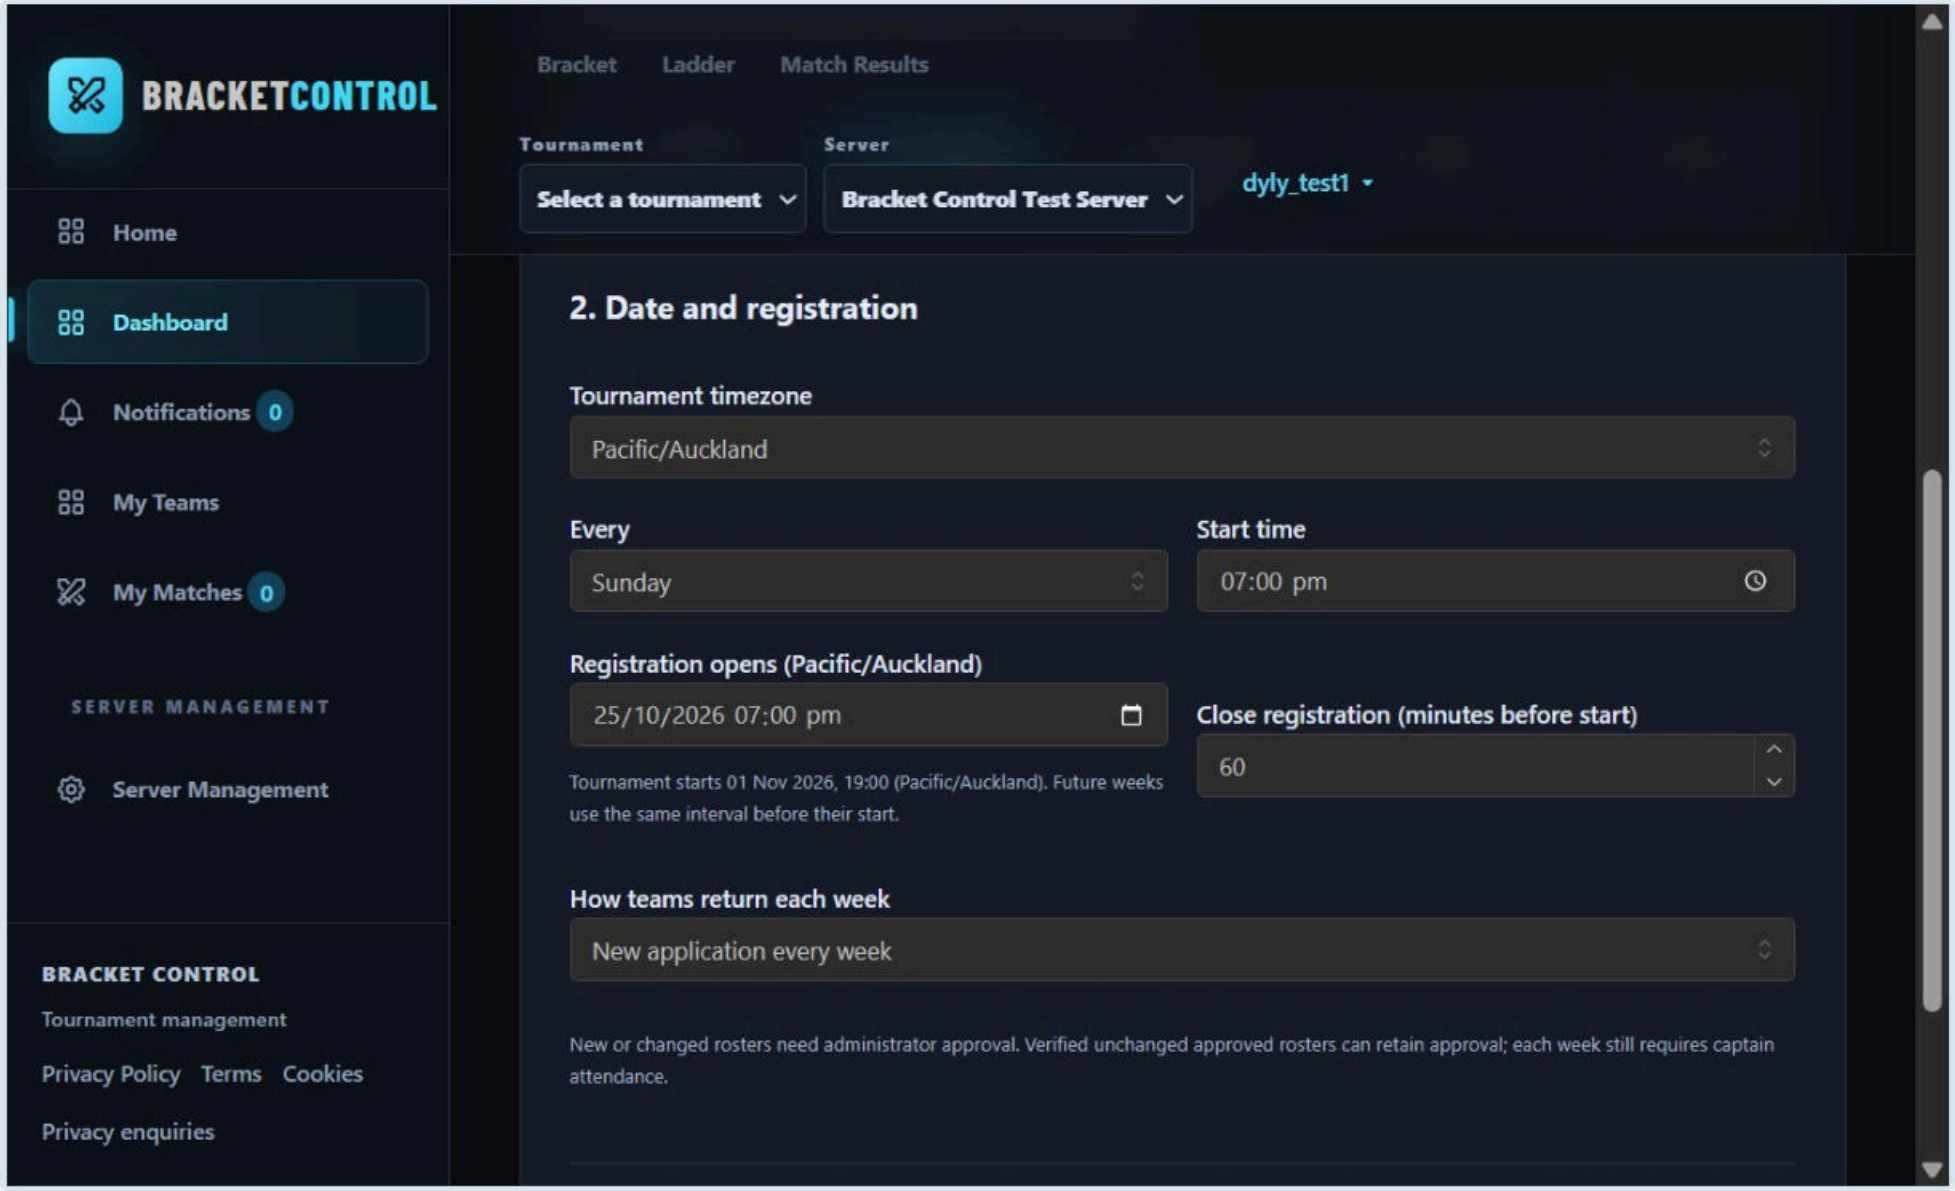

STEP 08-09

Review the schedule and timezone

On the **Schedule** screen, confirm the **Tournament timezone** before entering dates or times.

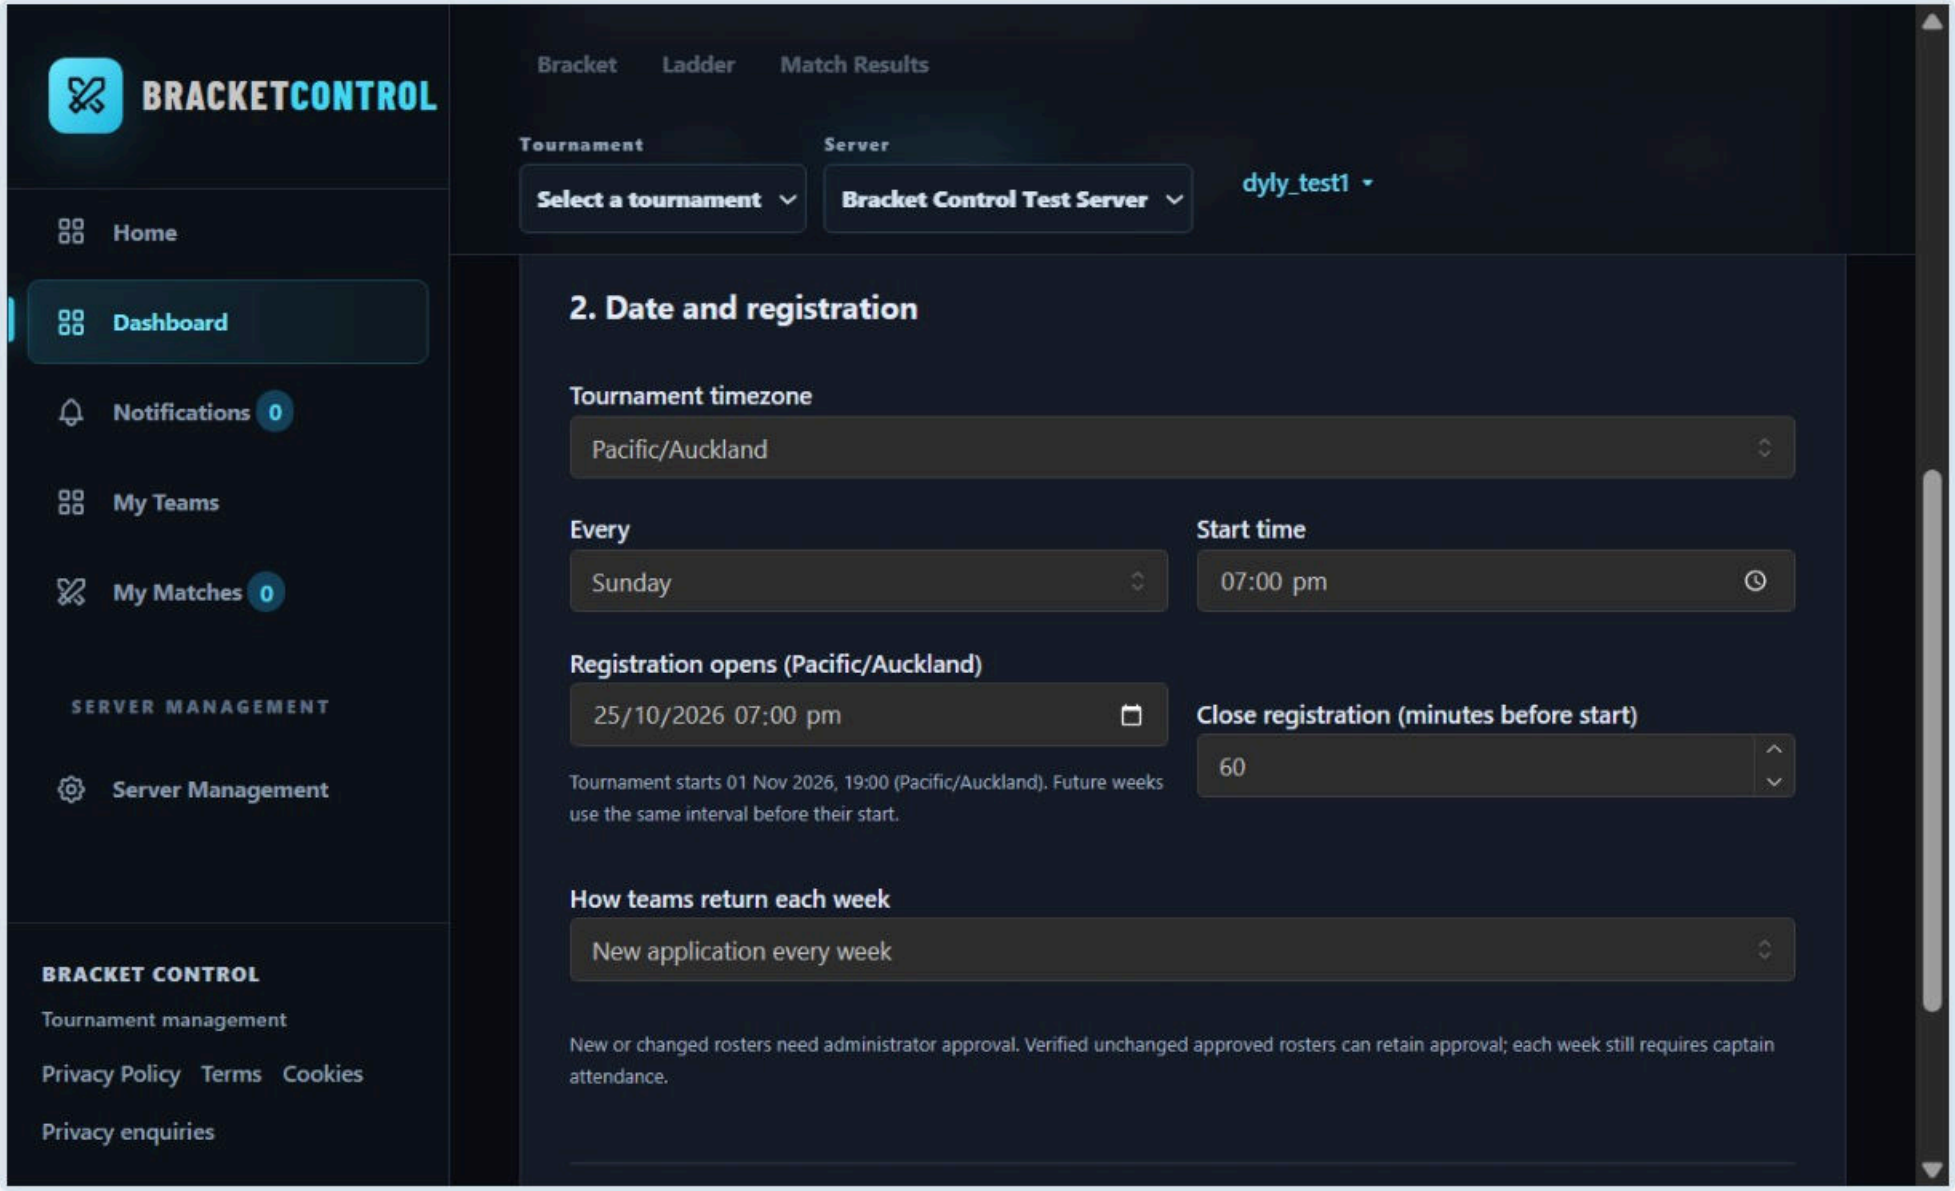

STEP 10-11

Choose the event day

Use the **Every** field to select which day the tournament will run.

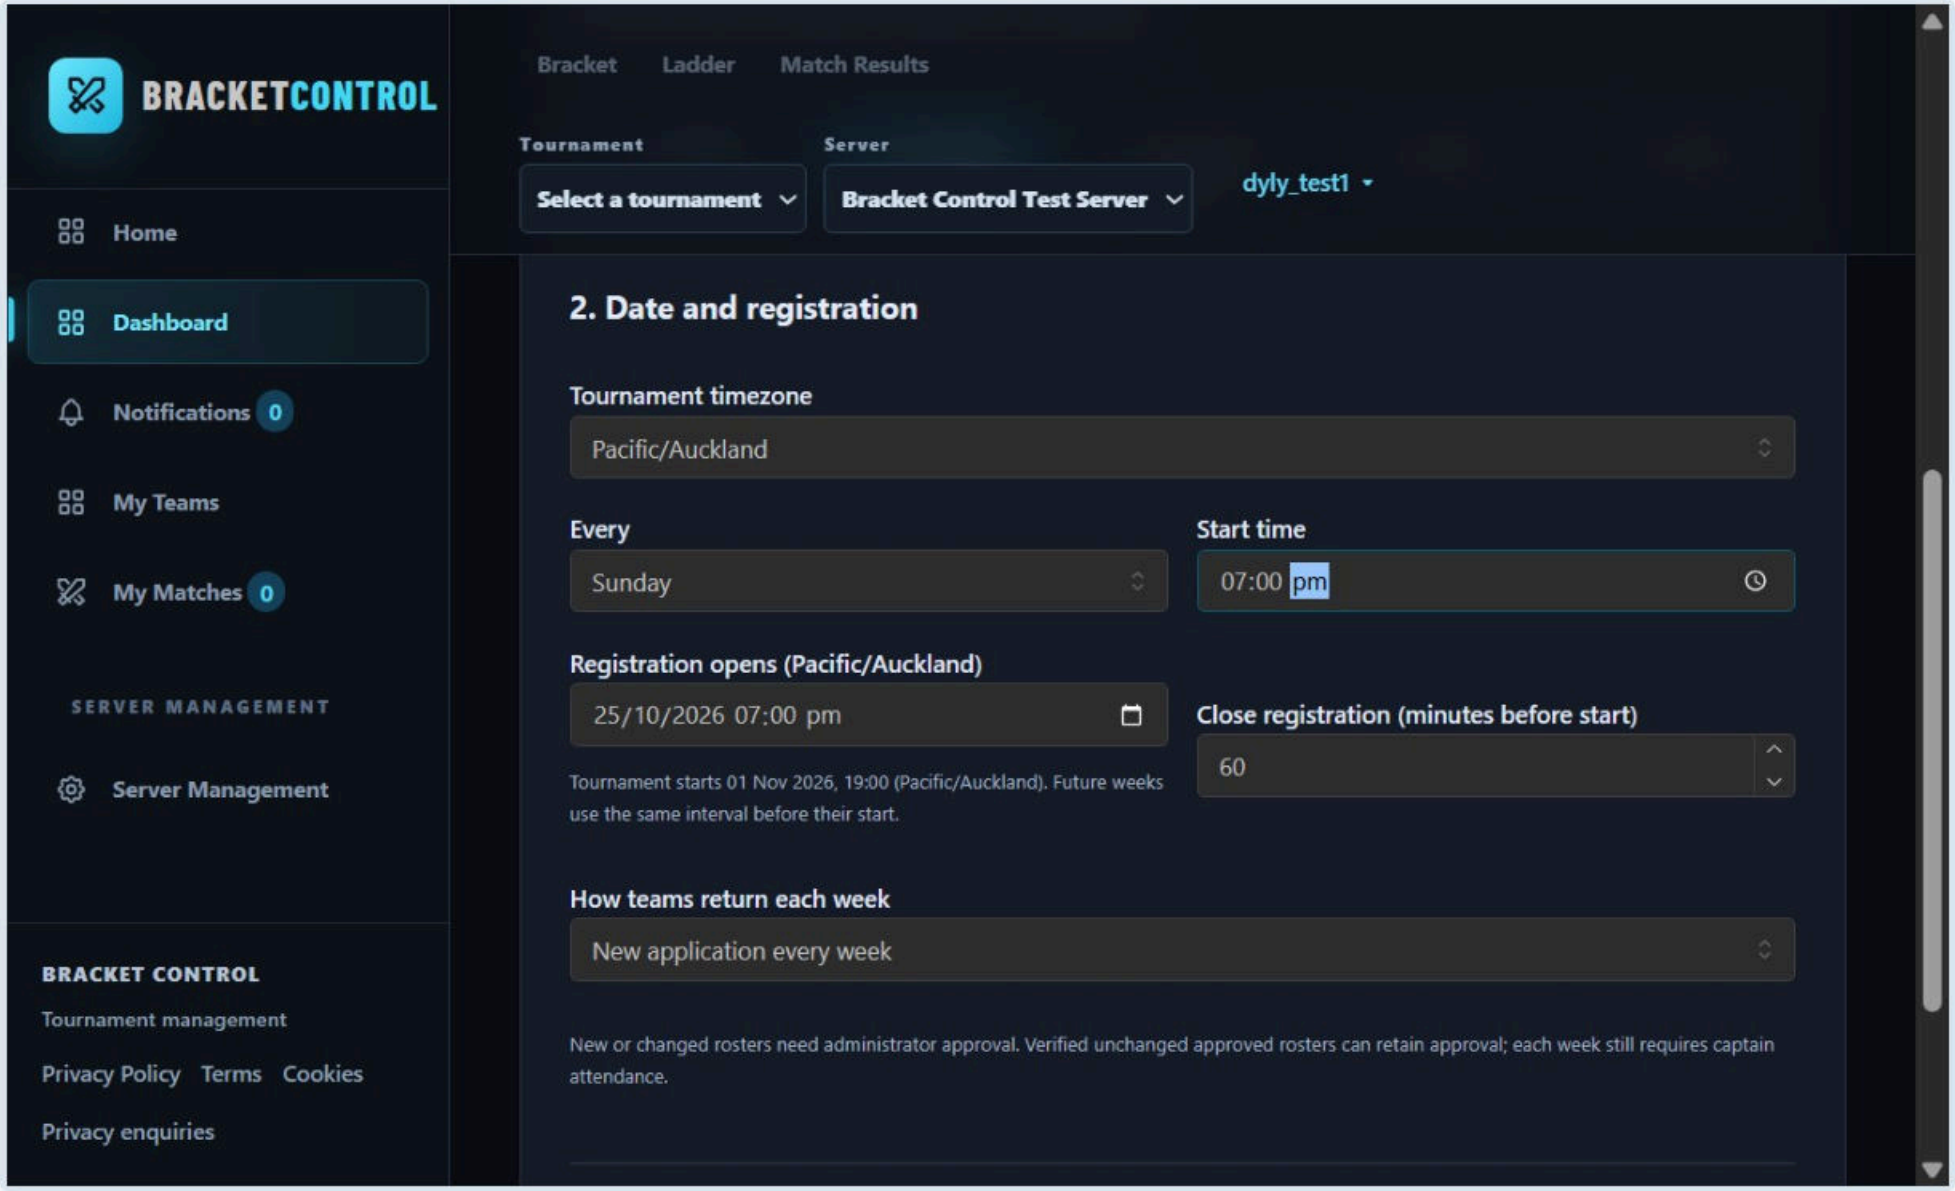

STEP 12

Set the start time

Select **Start time** and choose when tournament matches should begin.

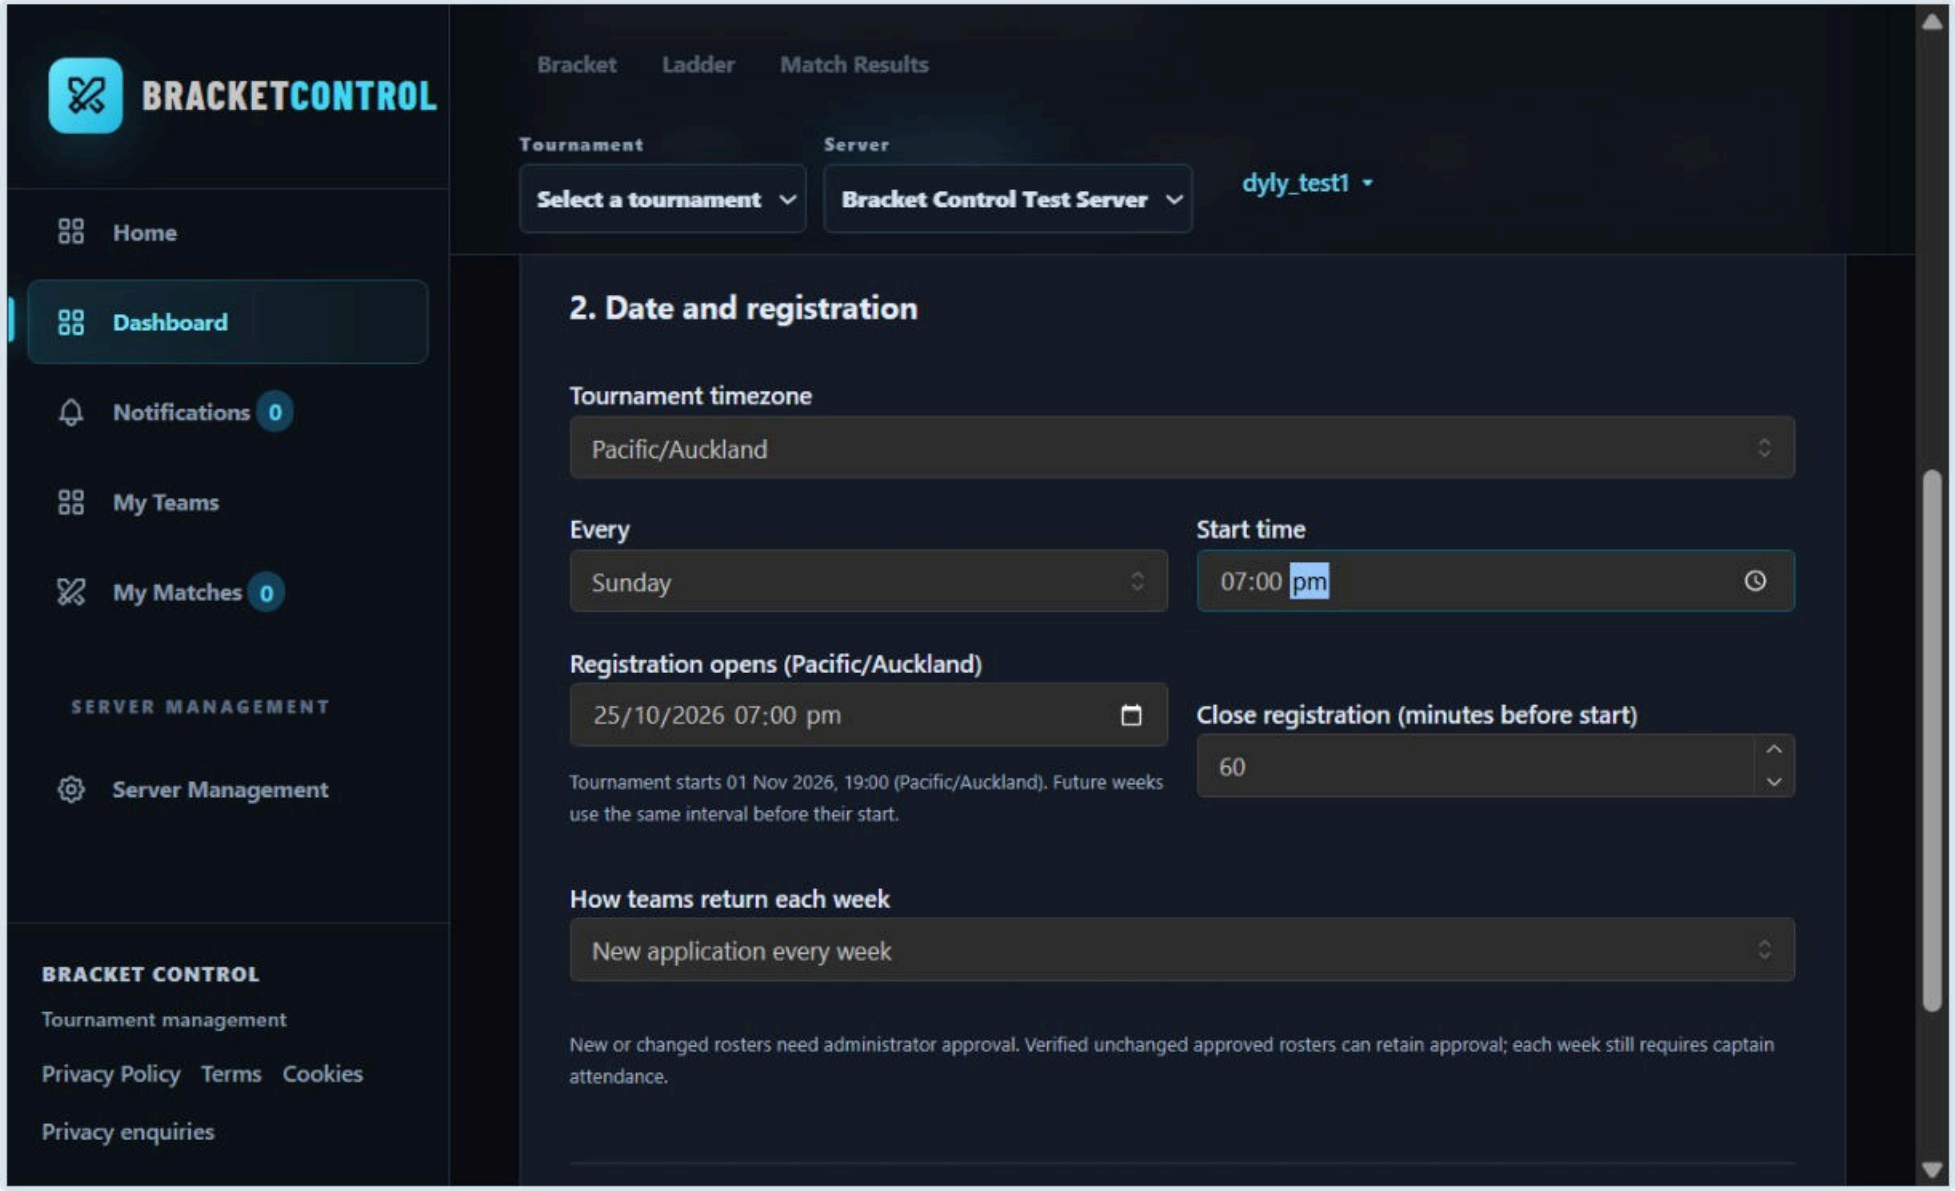

STEP 13

Set registration opening

Choose **Registration opens**. The captured instructions use this time for the bot's registration link in the configured Discord channel.

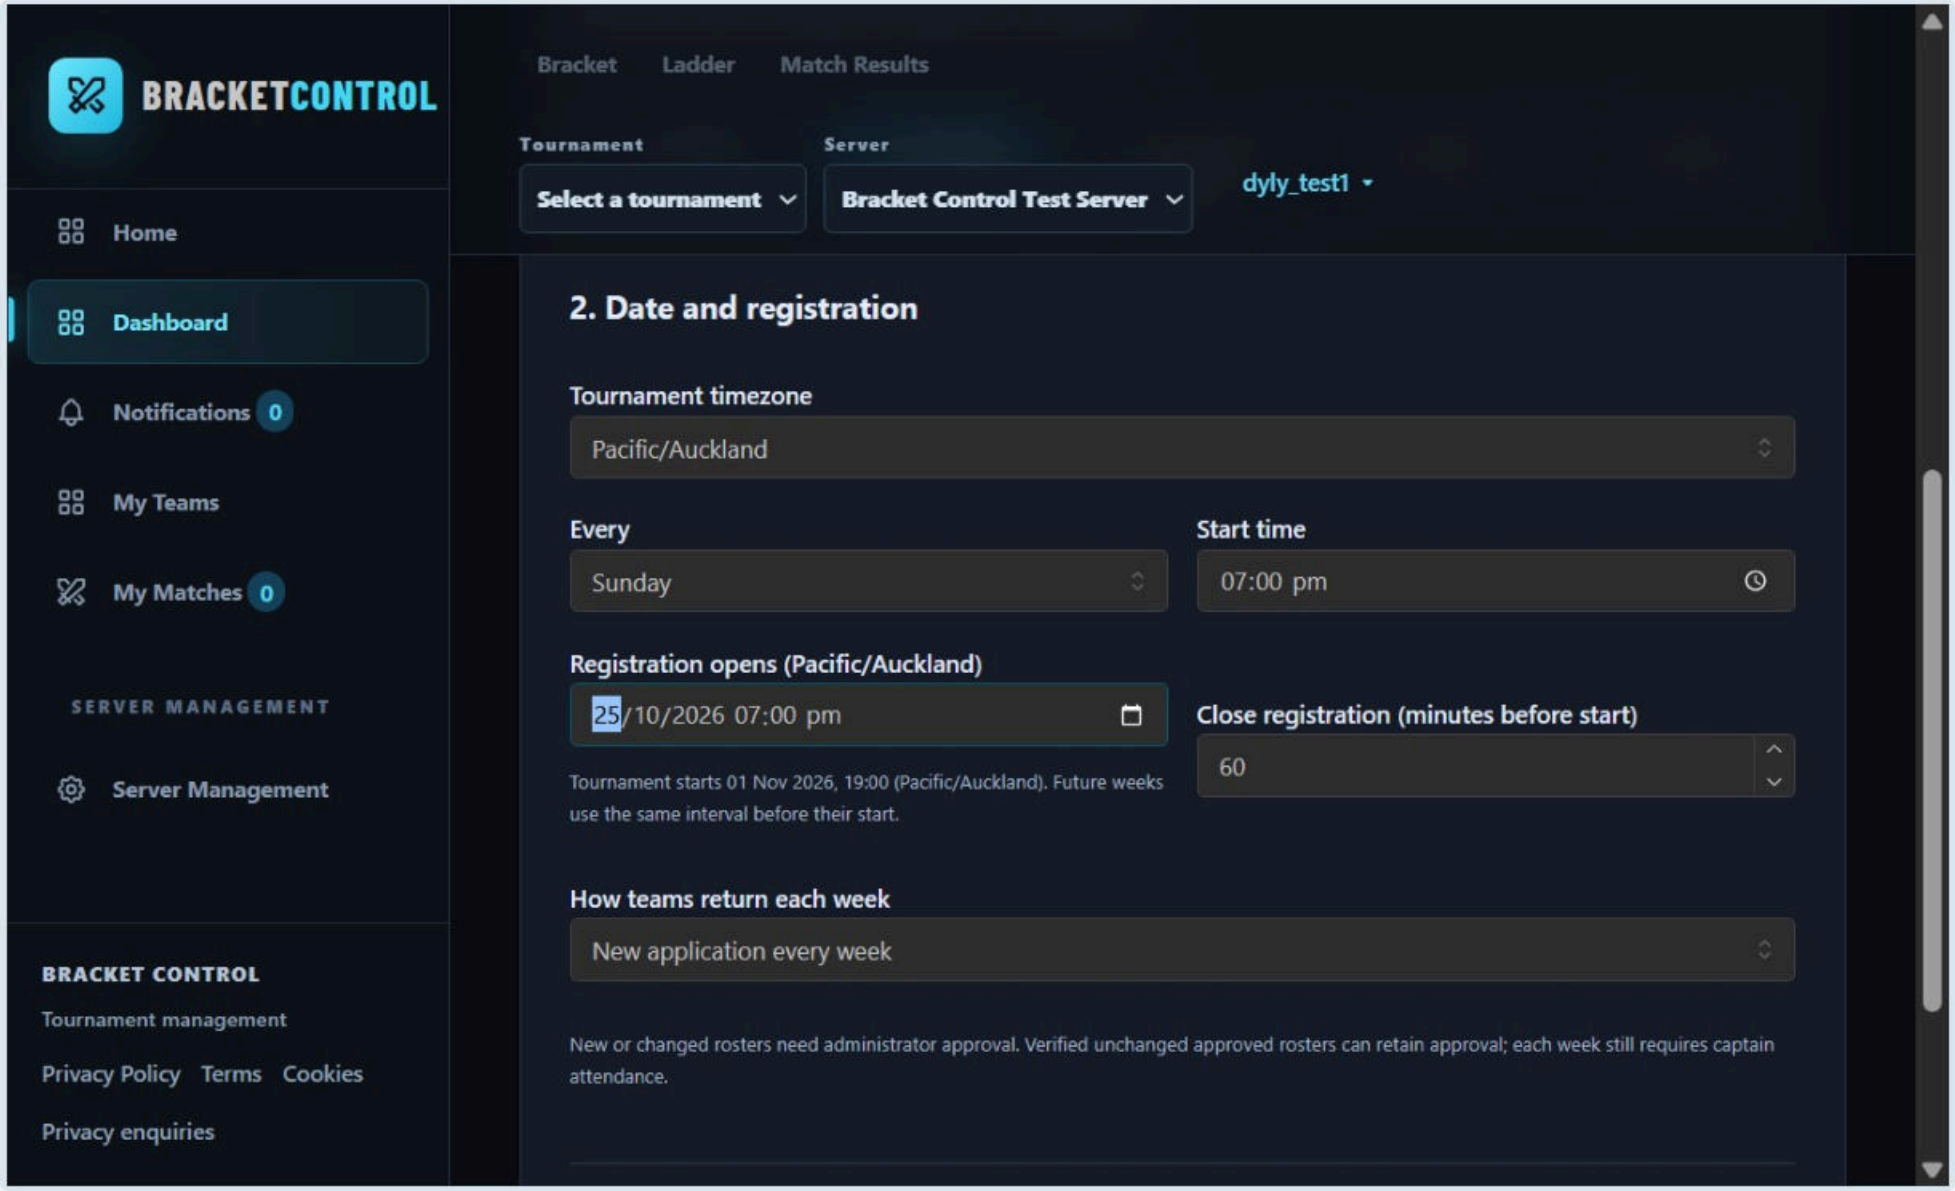

STEP 14

Set registration closing

Enter **Close registration (minutes before start)** to specify how long before the event registration closes.

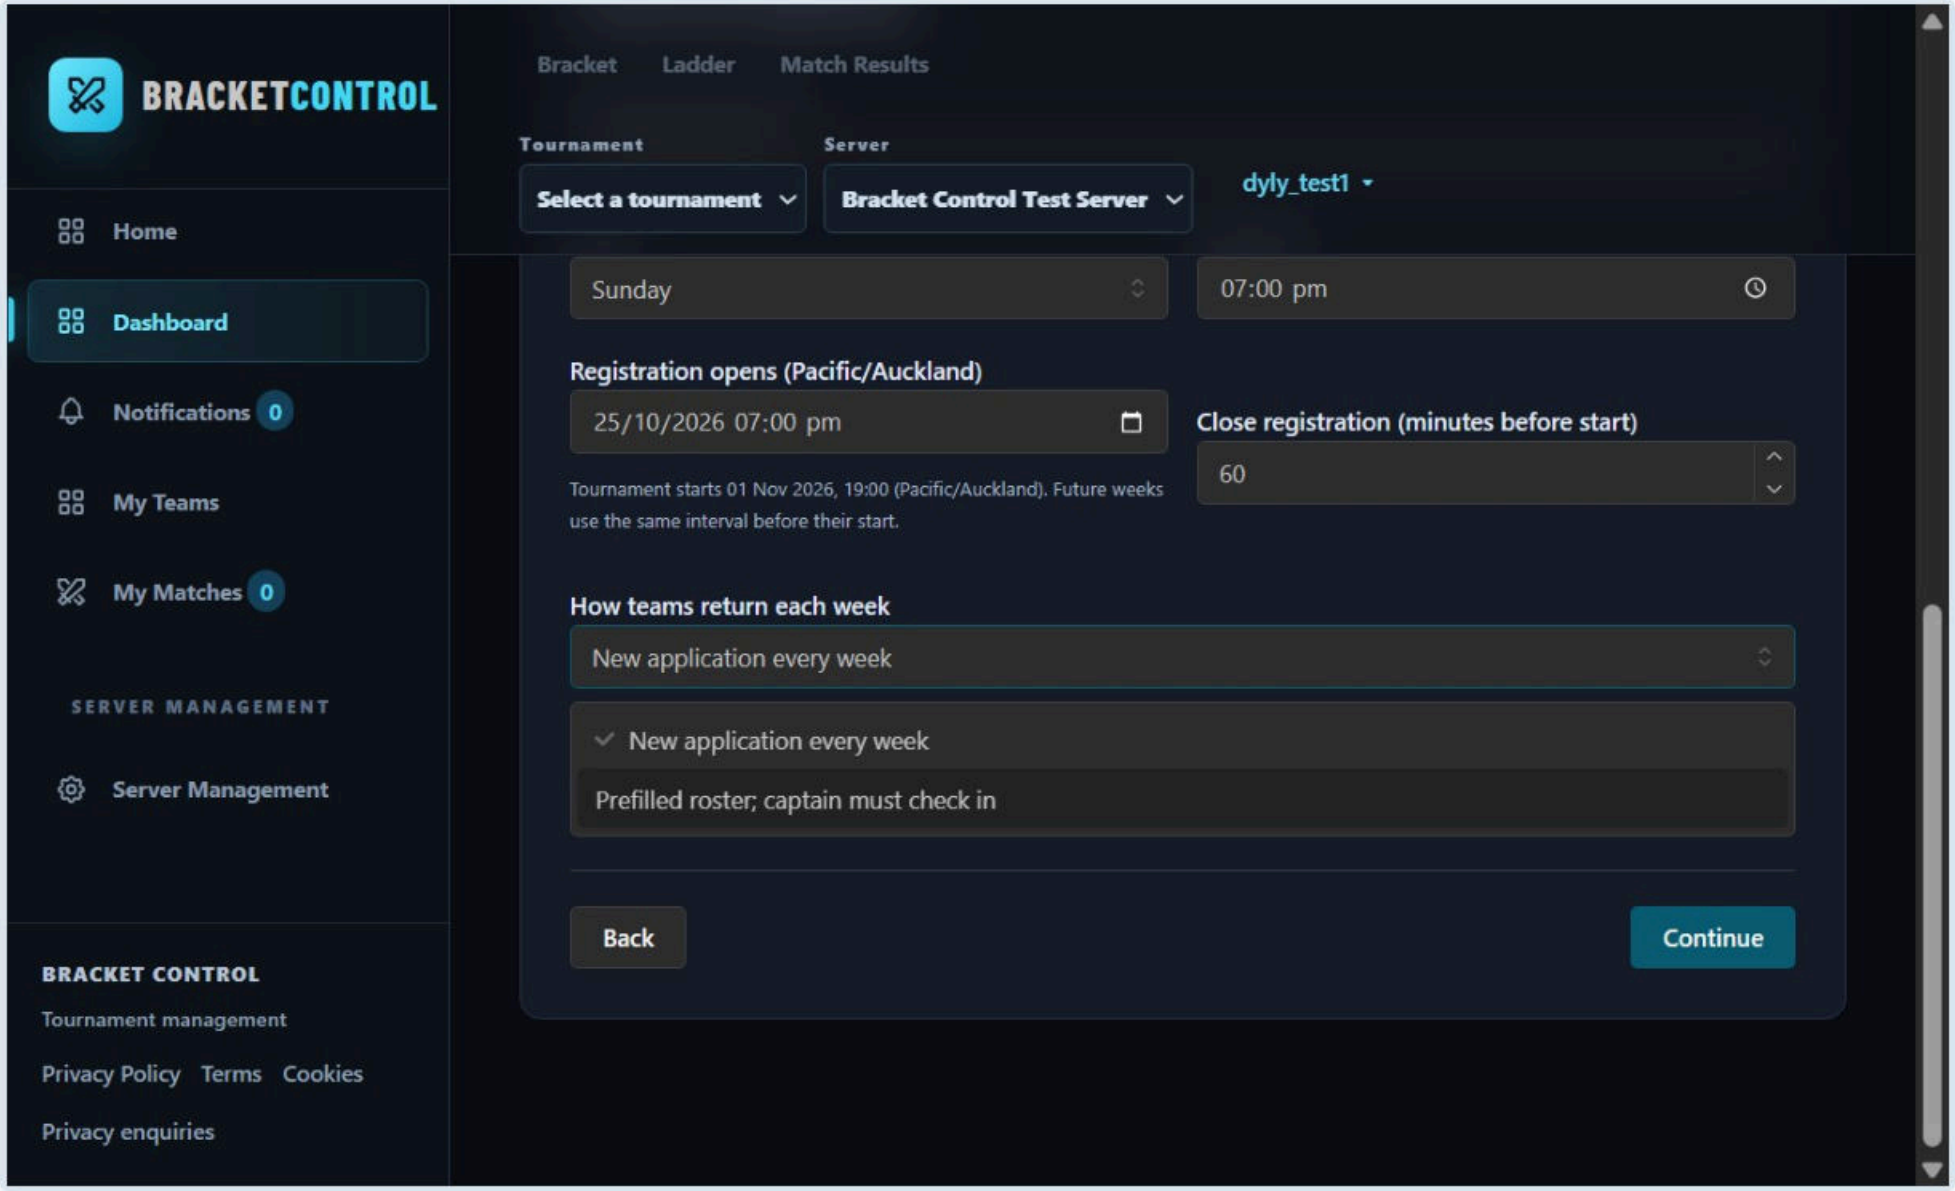

STEP 15

Choose how teams return

Under **How teams return each week**, choose the new-applications option, or **Prefilled roster; captain must check in** for recurring events.

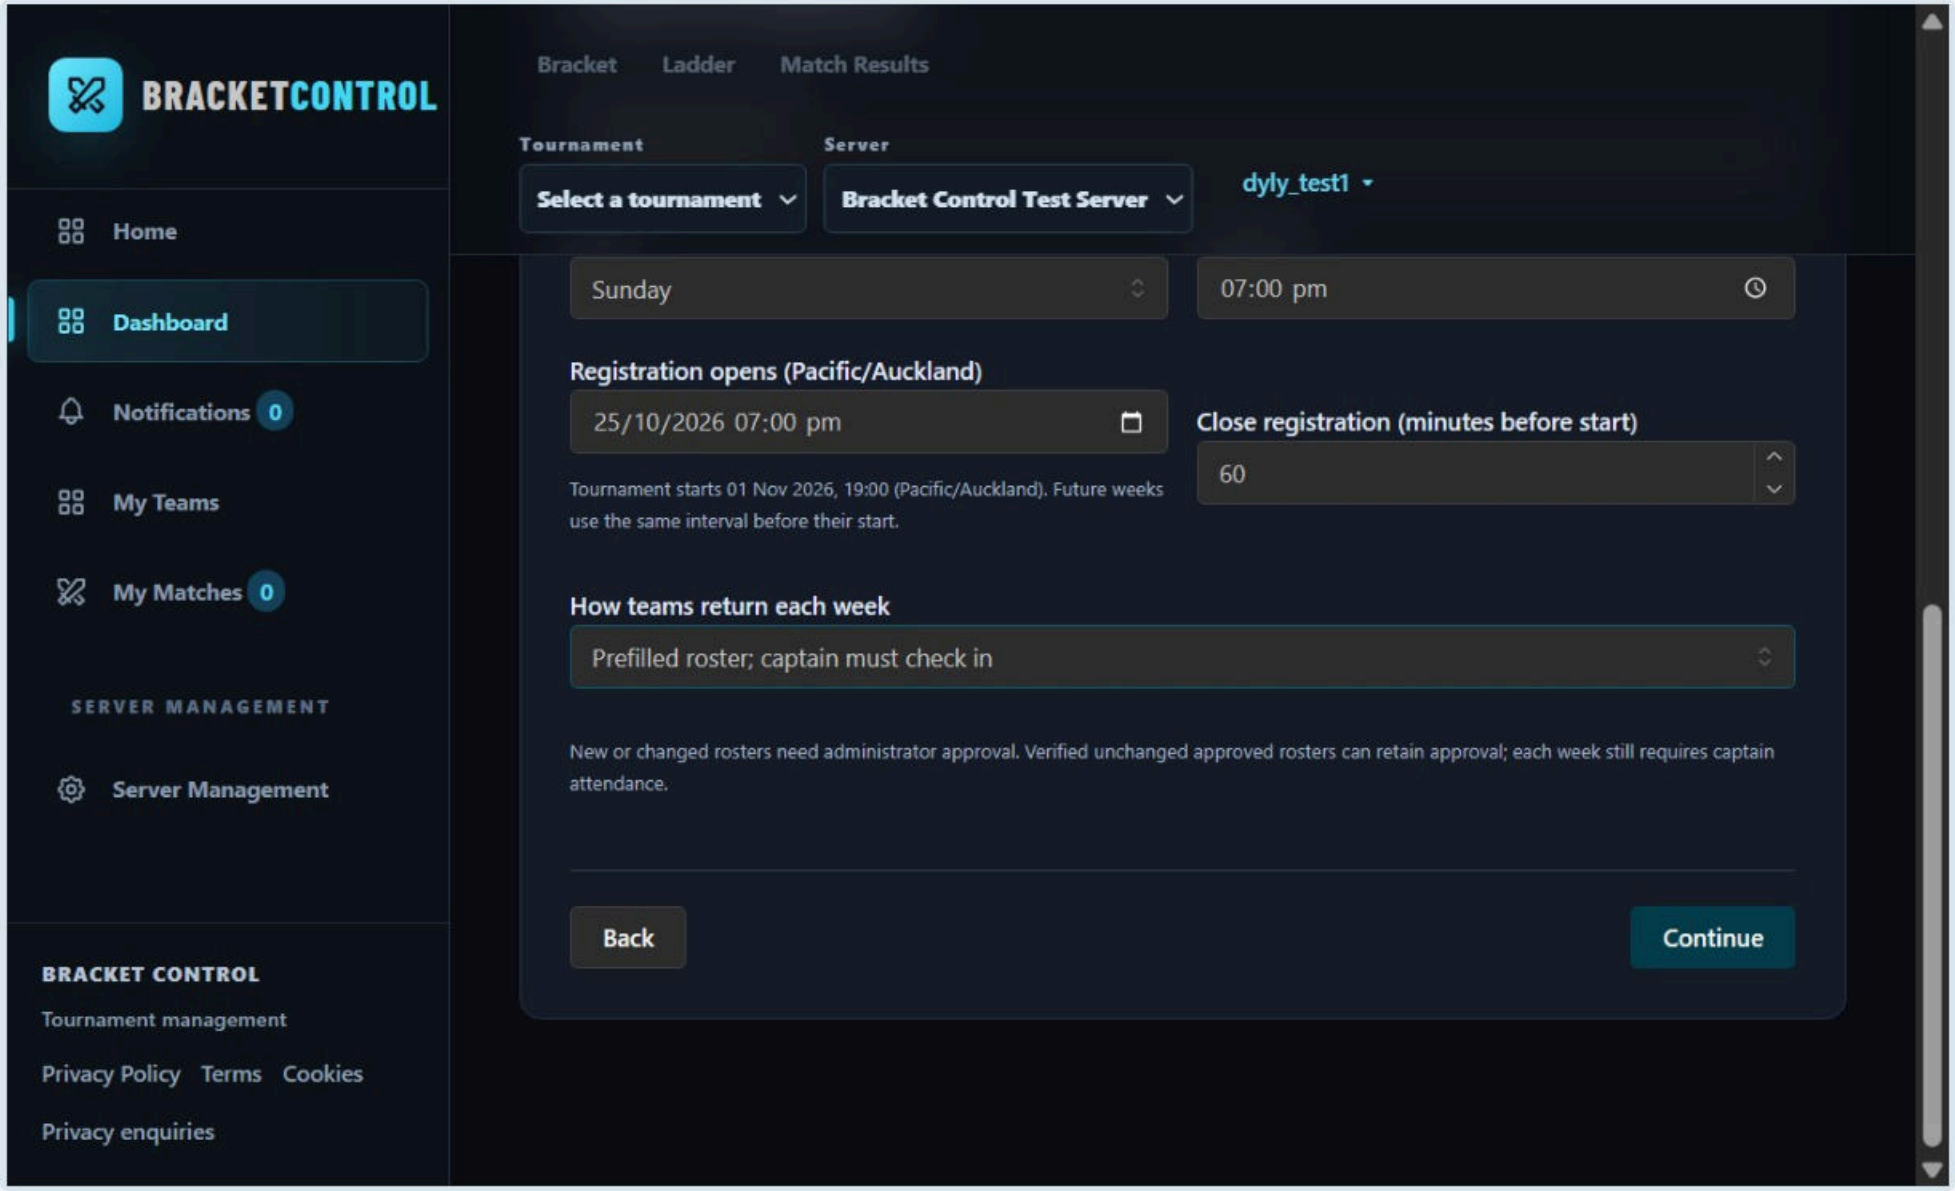

STEP 16-17

Continue to tournament rules

Check the schedule and registration settings, then select **Continue**.

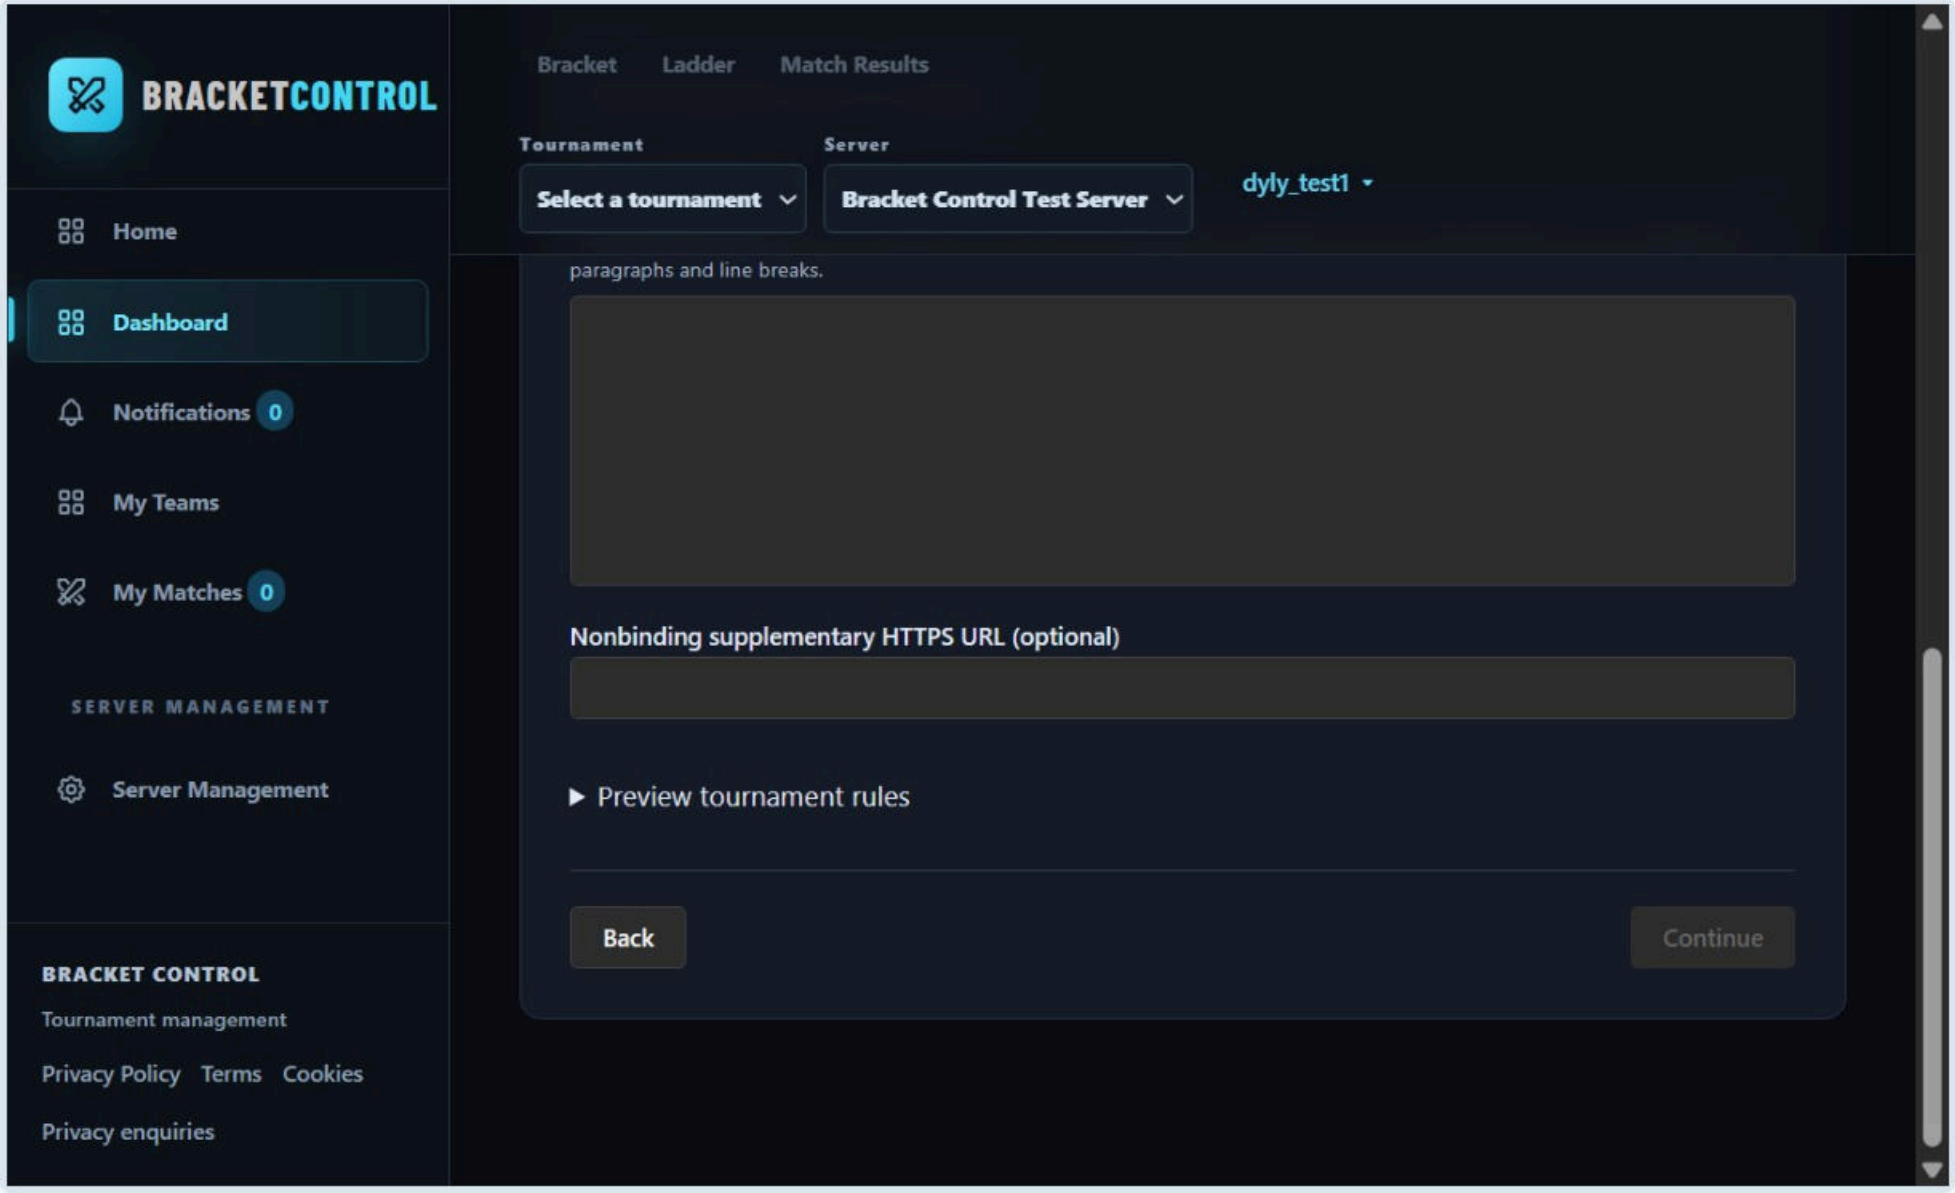

STEP 18

Enter tournament rules

On the **Tournament Rules** screen, enter the event's rules and any game-specific modifiers in **Tournament rules** *.

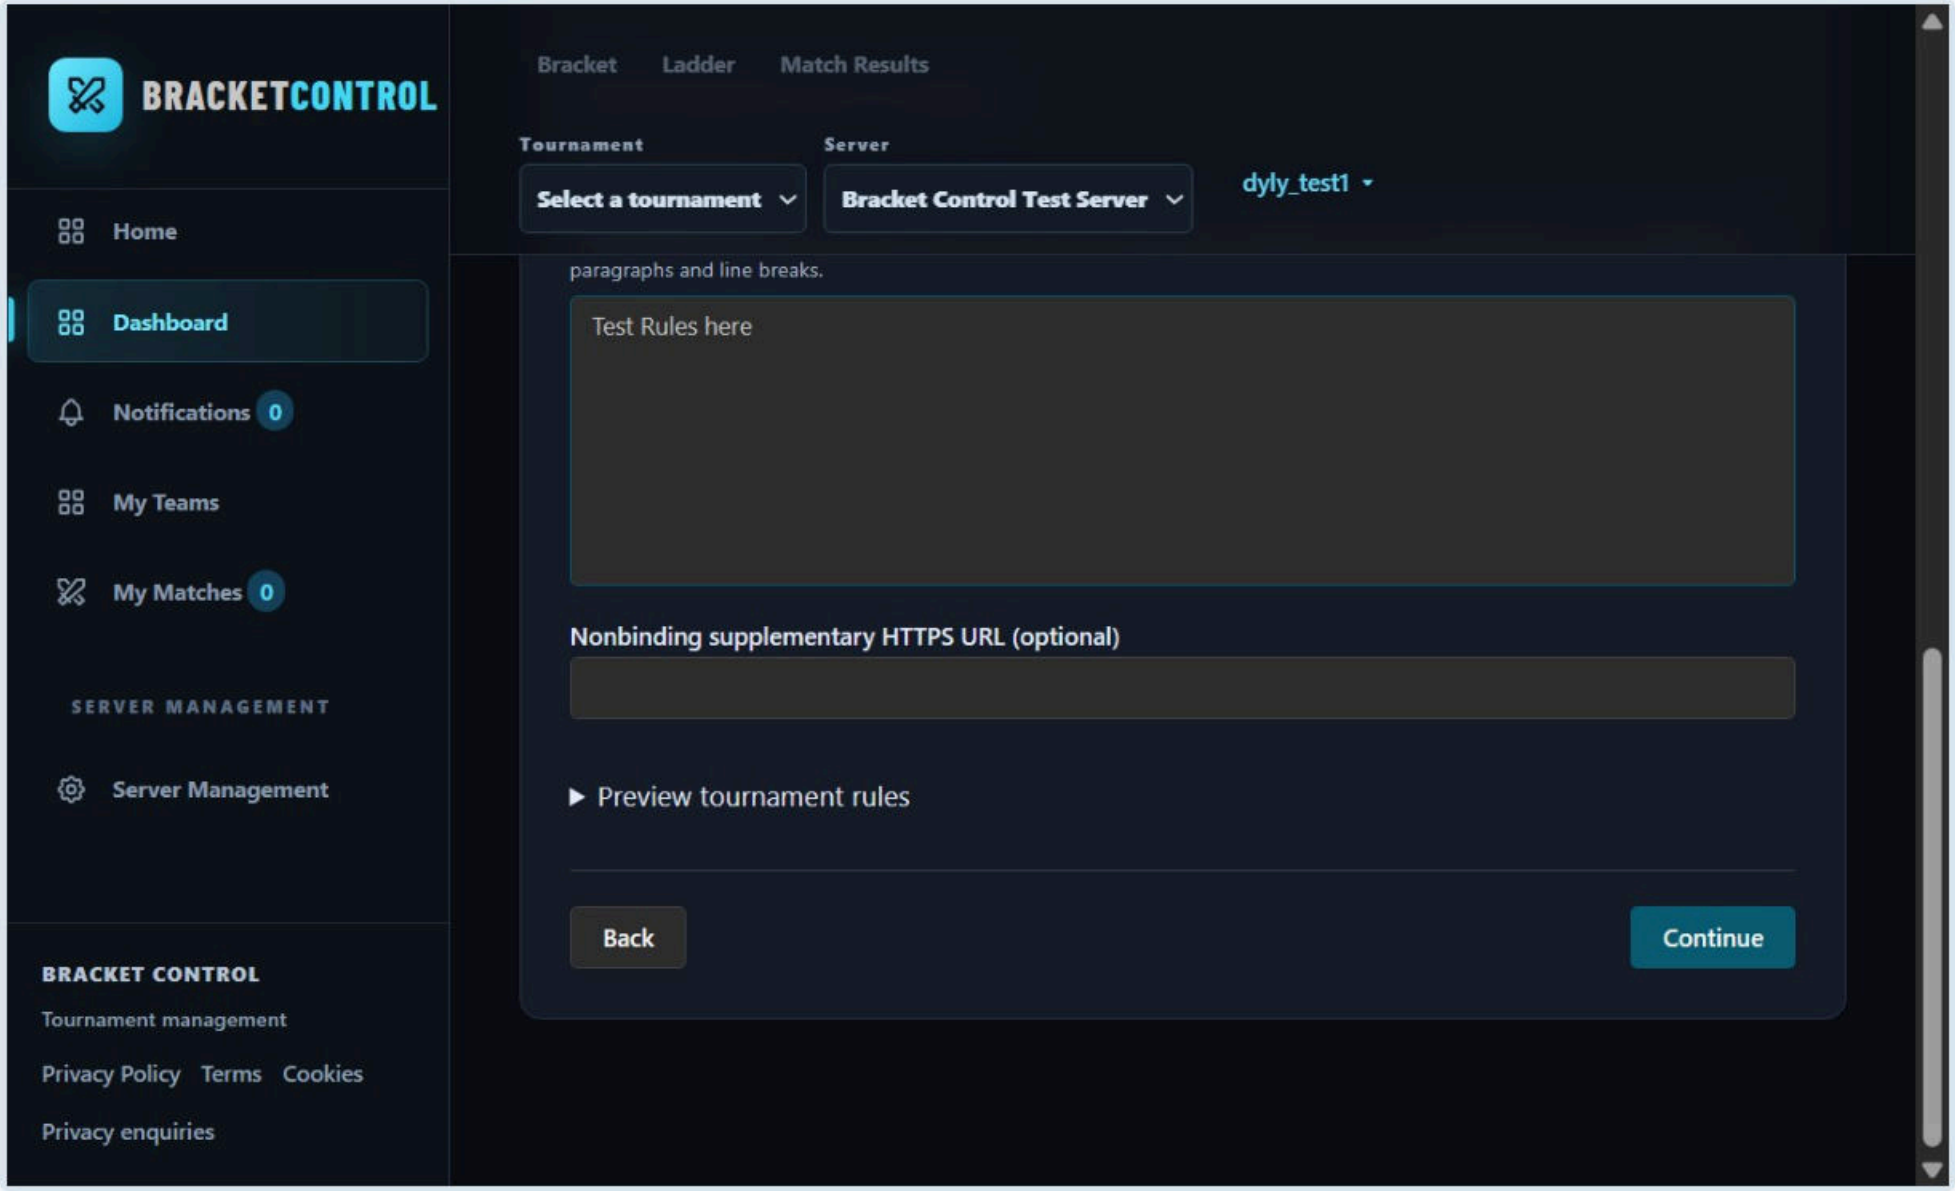

STEP 19-20

Preview your rules

Select **Preview tournament rules**, review the presentation, then select **Continue**.

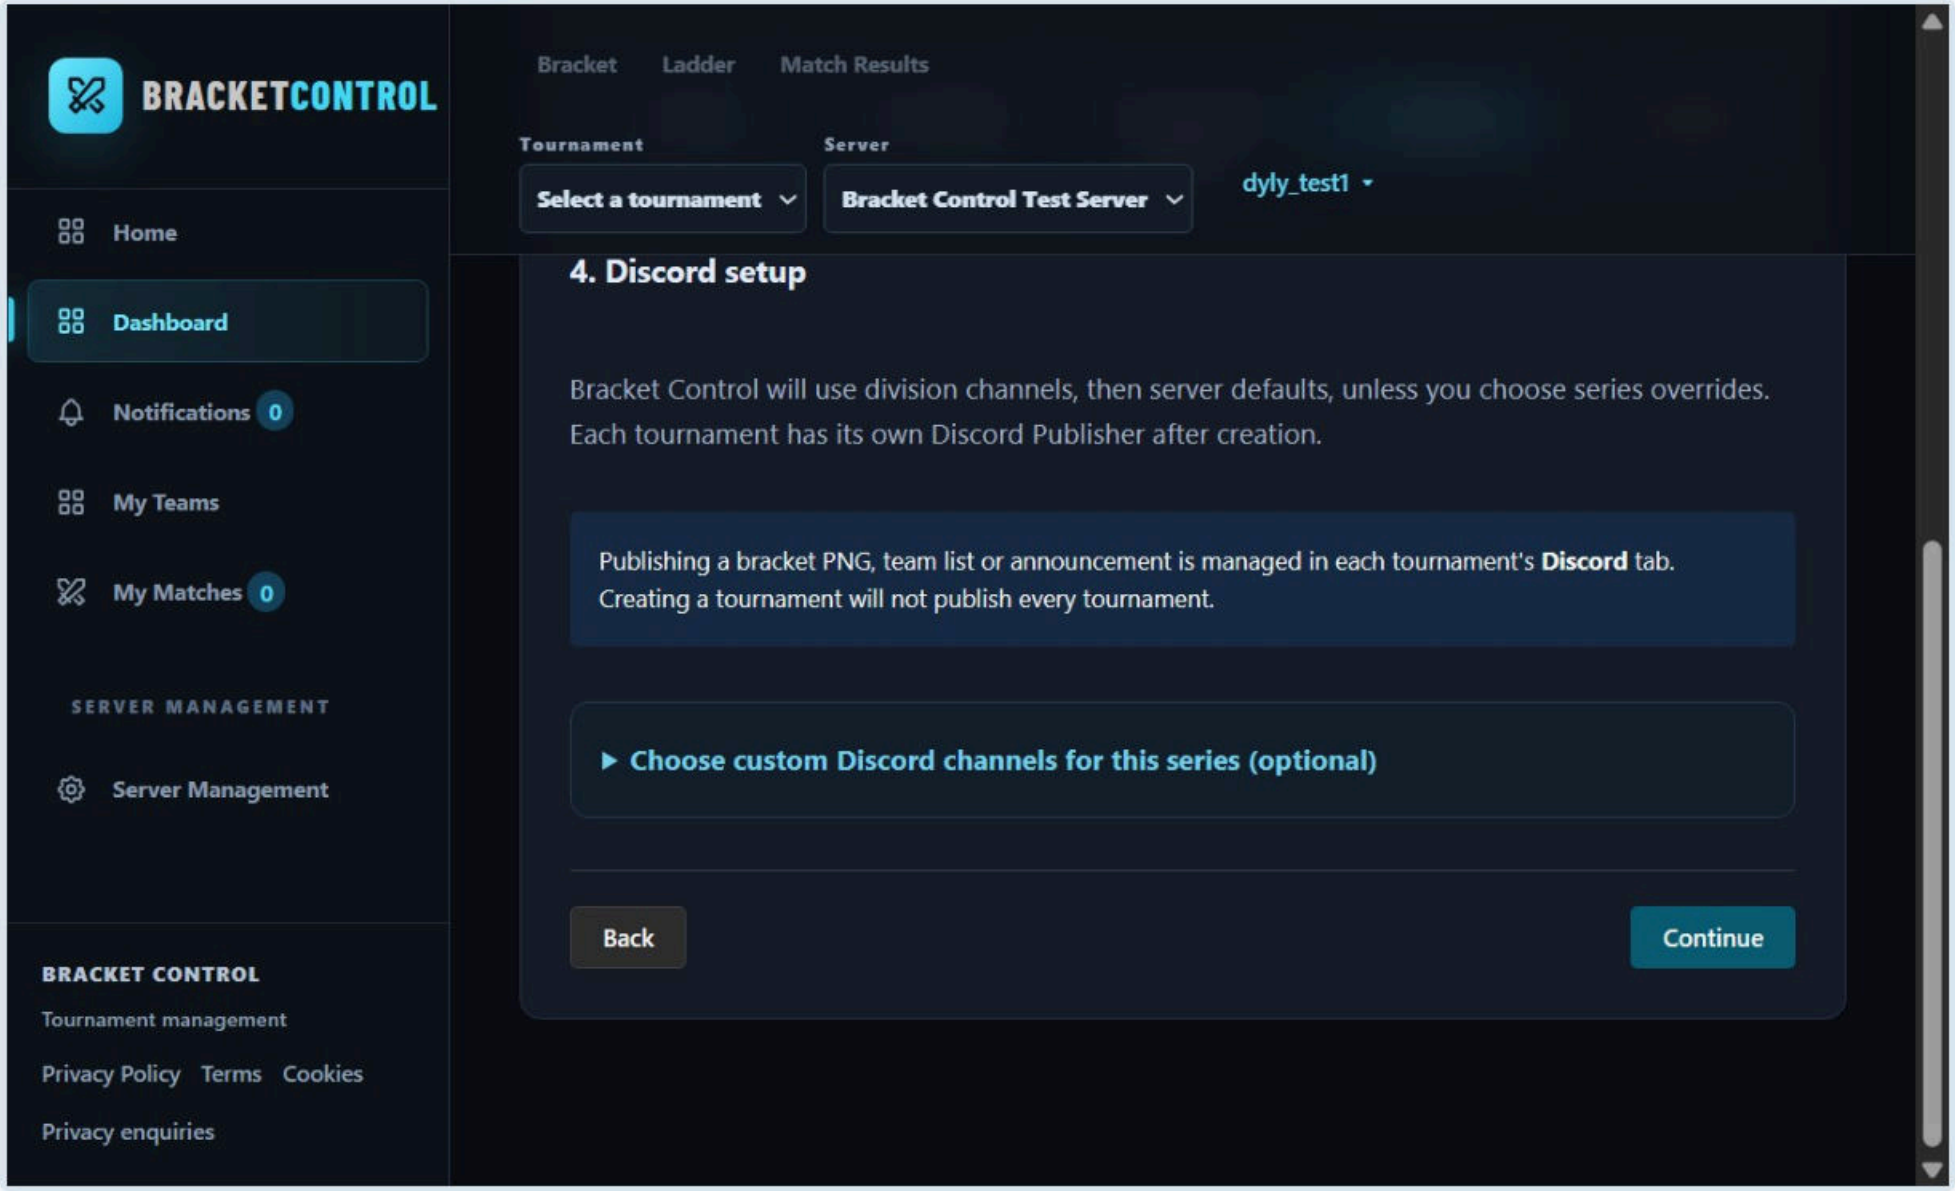

STEP 21-22

Review Discord channel destinations

Expand **Choose custom Discord channels for this series (optional)** if you need tournament-specific publishing destinations.

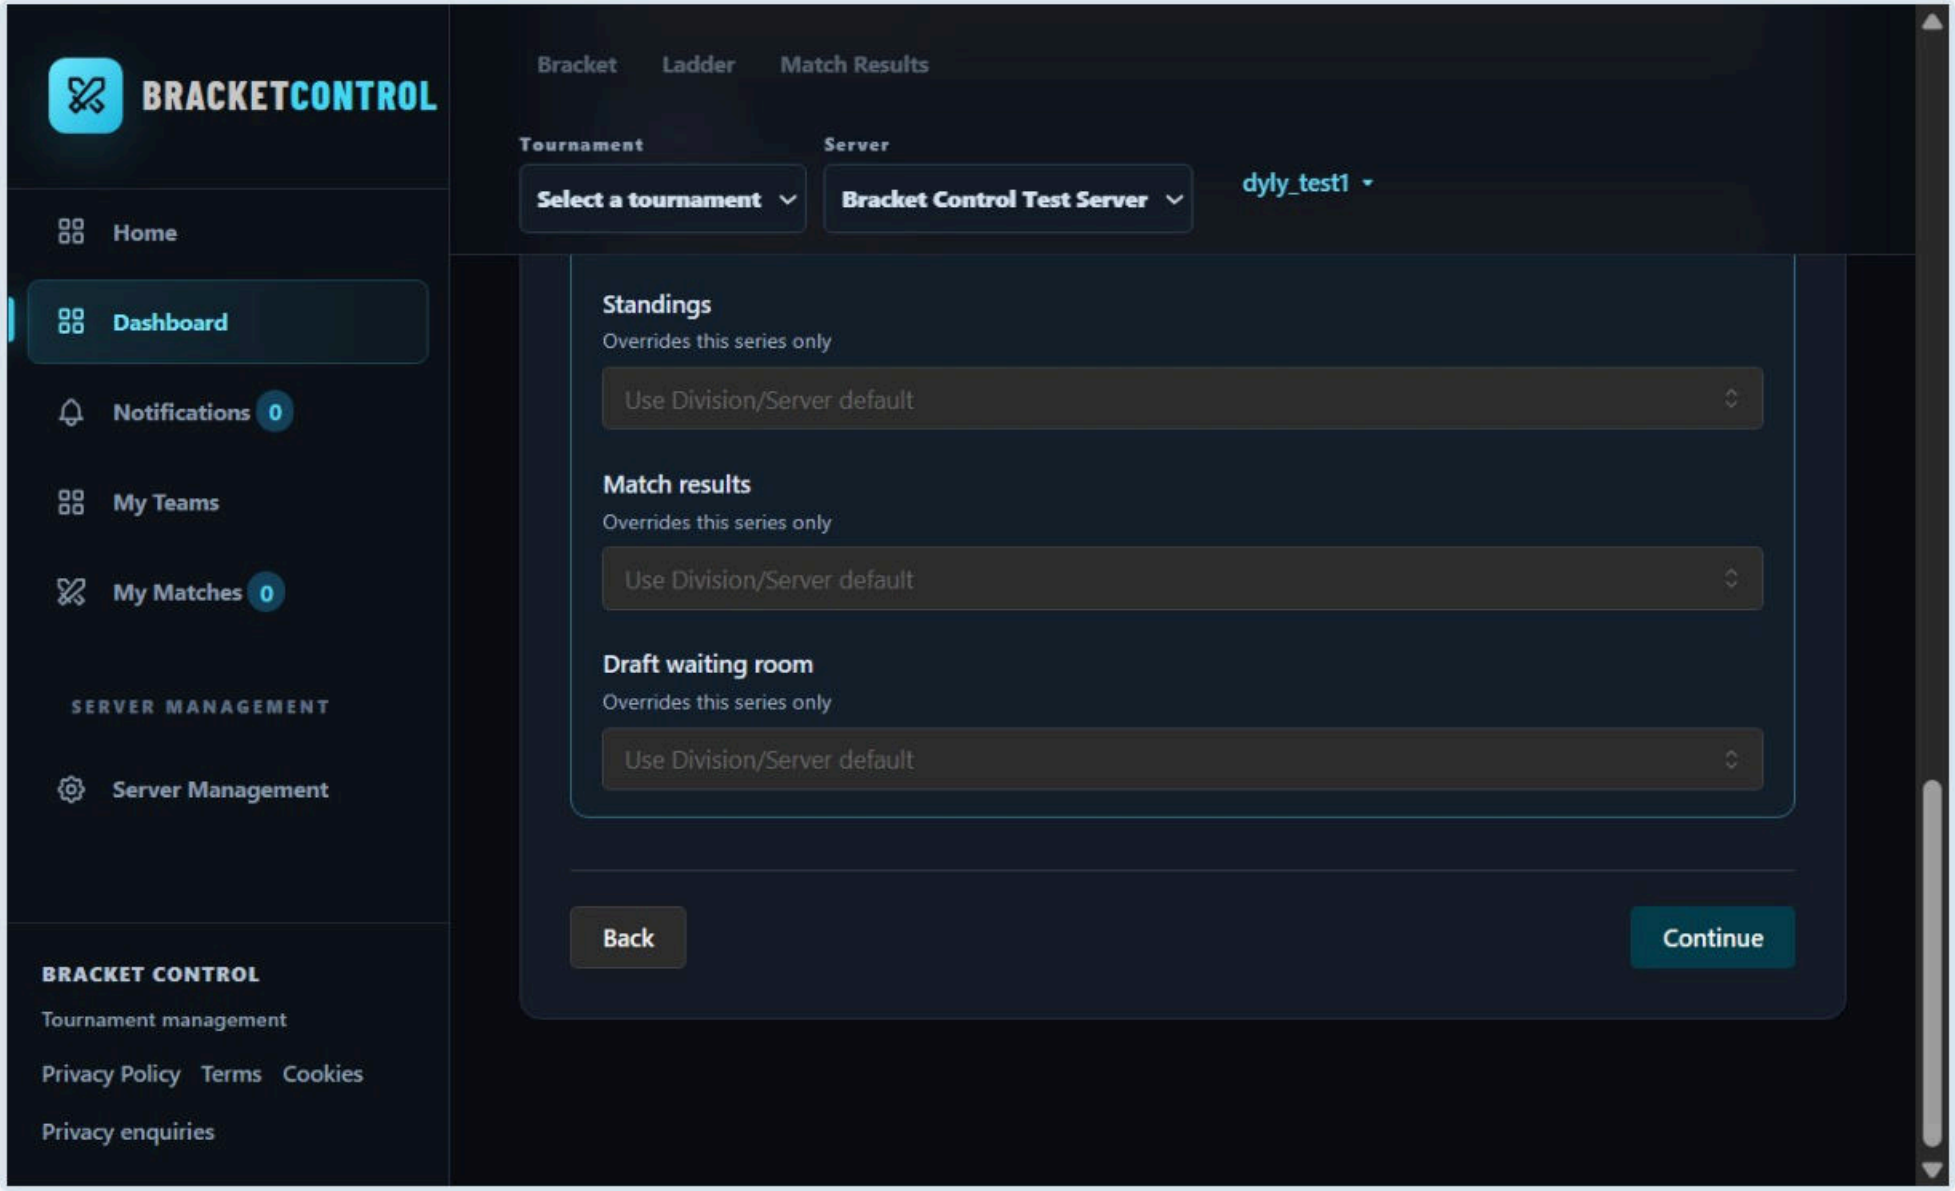

STEP 23

Verify Discord publishing settings

Check where Bracket Control will post tournament information, then select **Continue**.

STEP 24

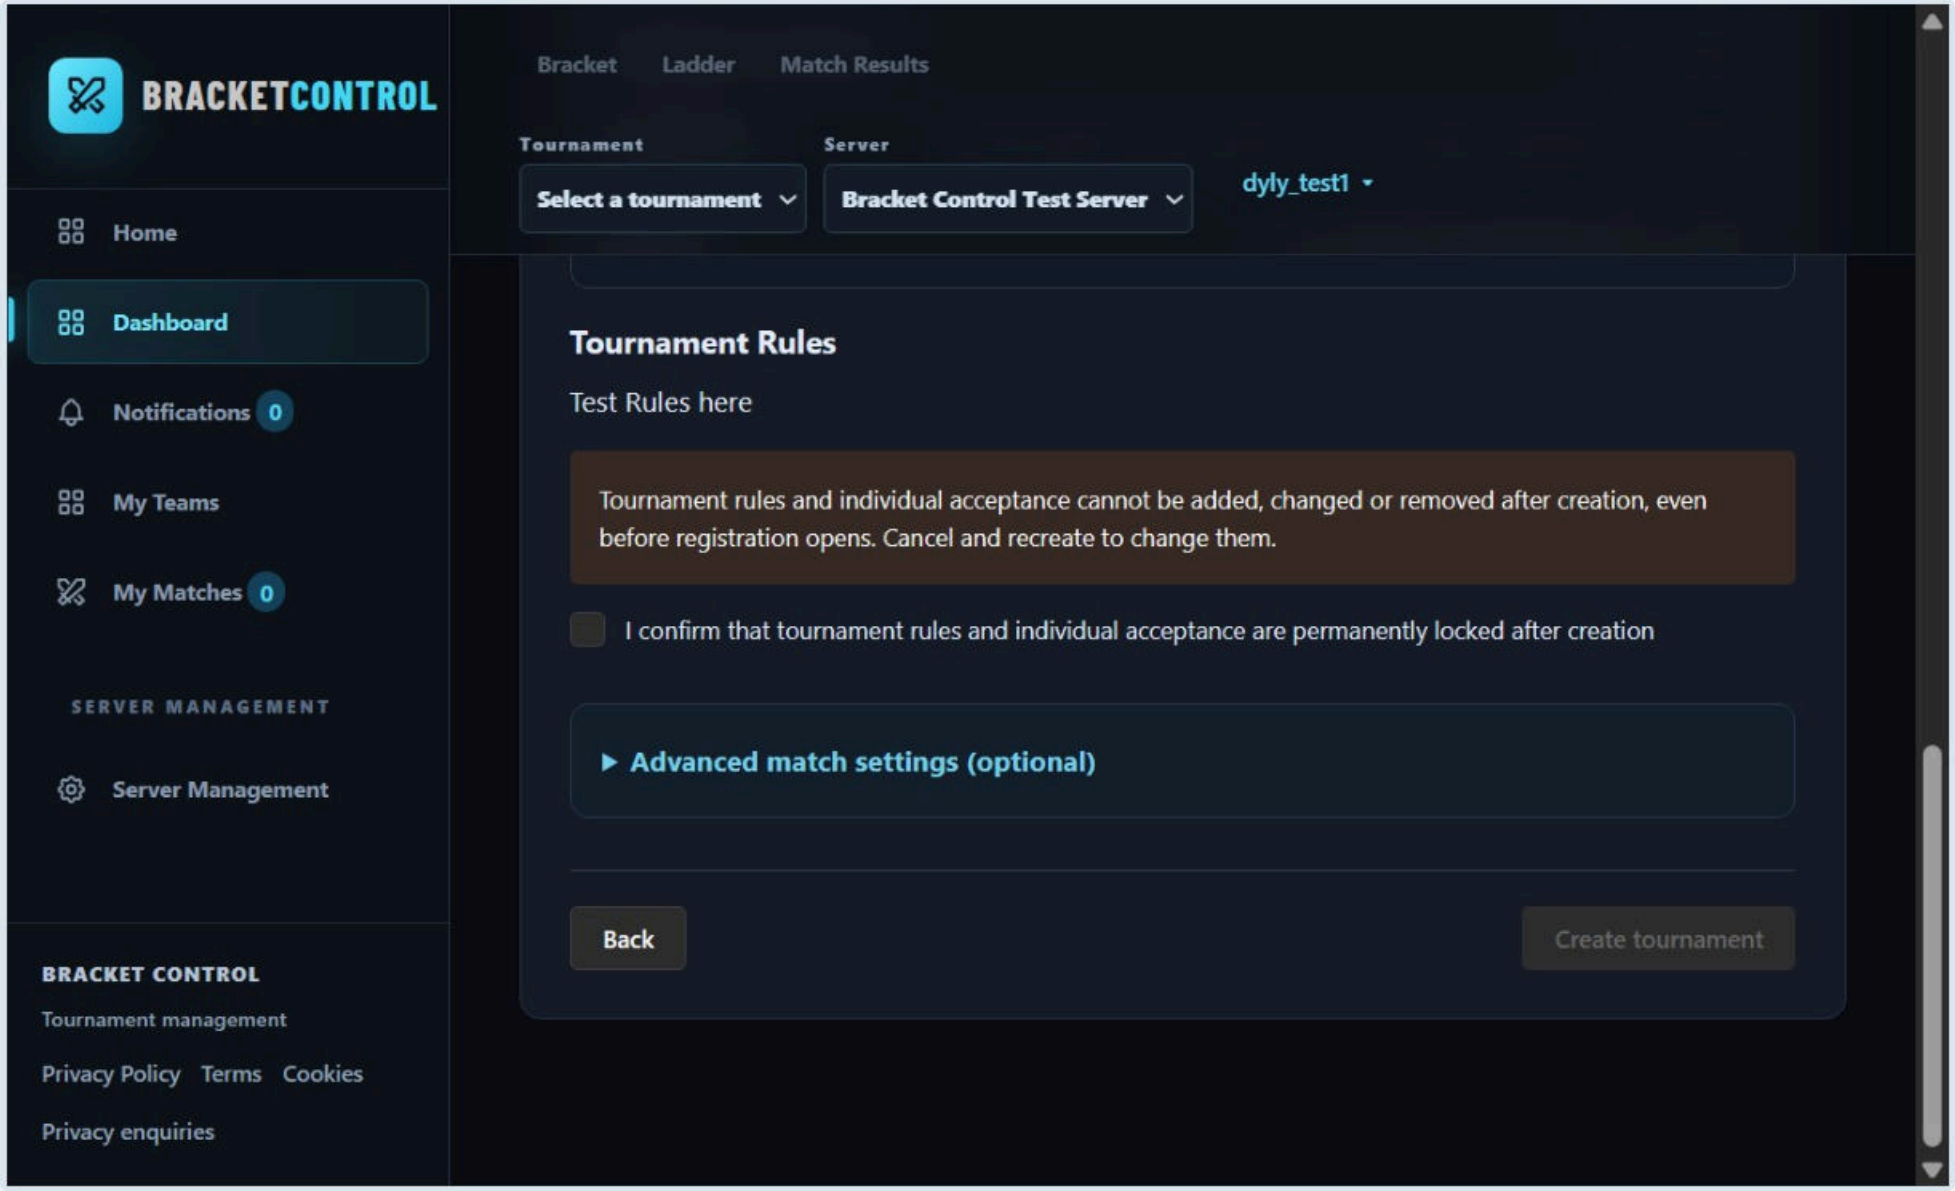

Acknowledge the rules lock

Review the warning and tick **I confirm that tournament rules and individual acceptance are permanently locked after creation**.

These settings cannot be added, changed or removed after creation. Review them before proceeding.

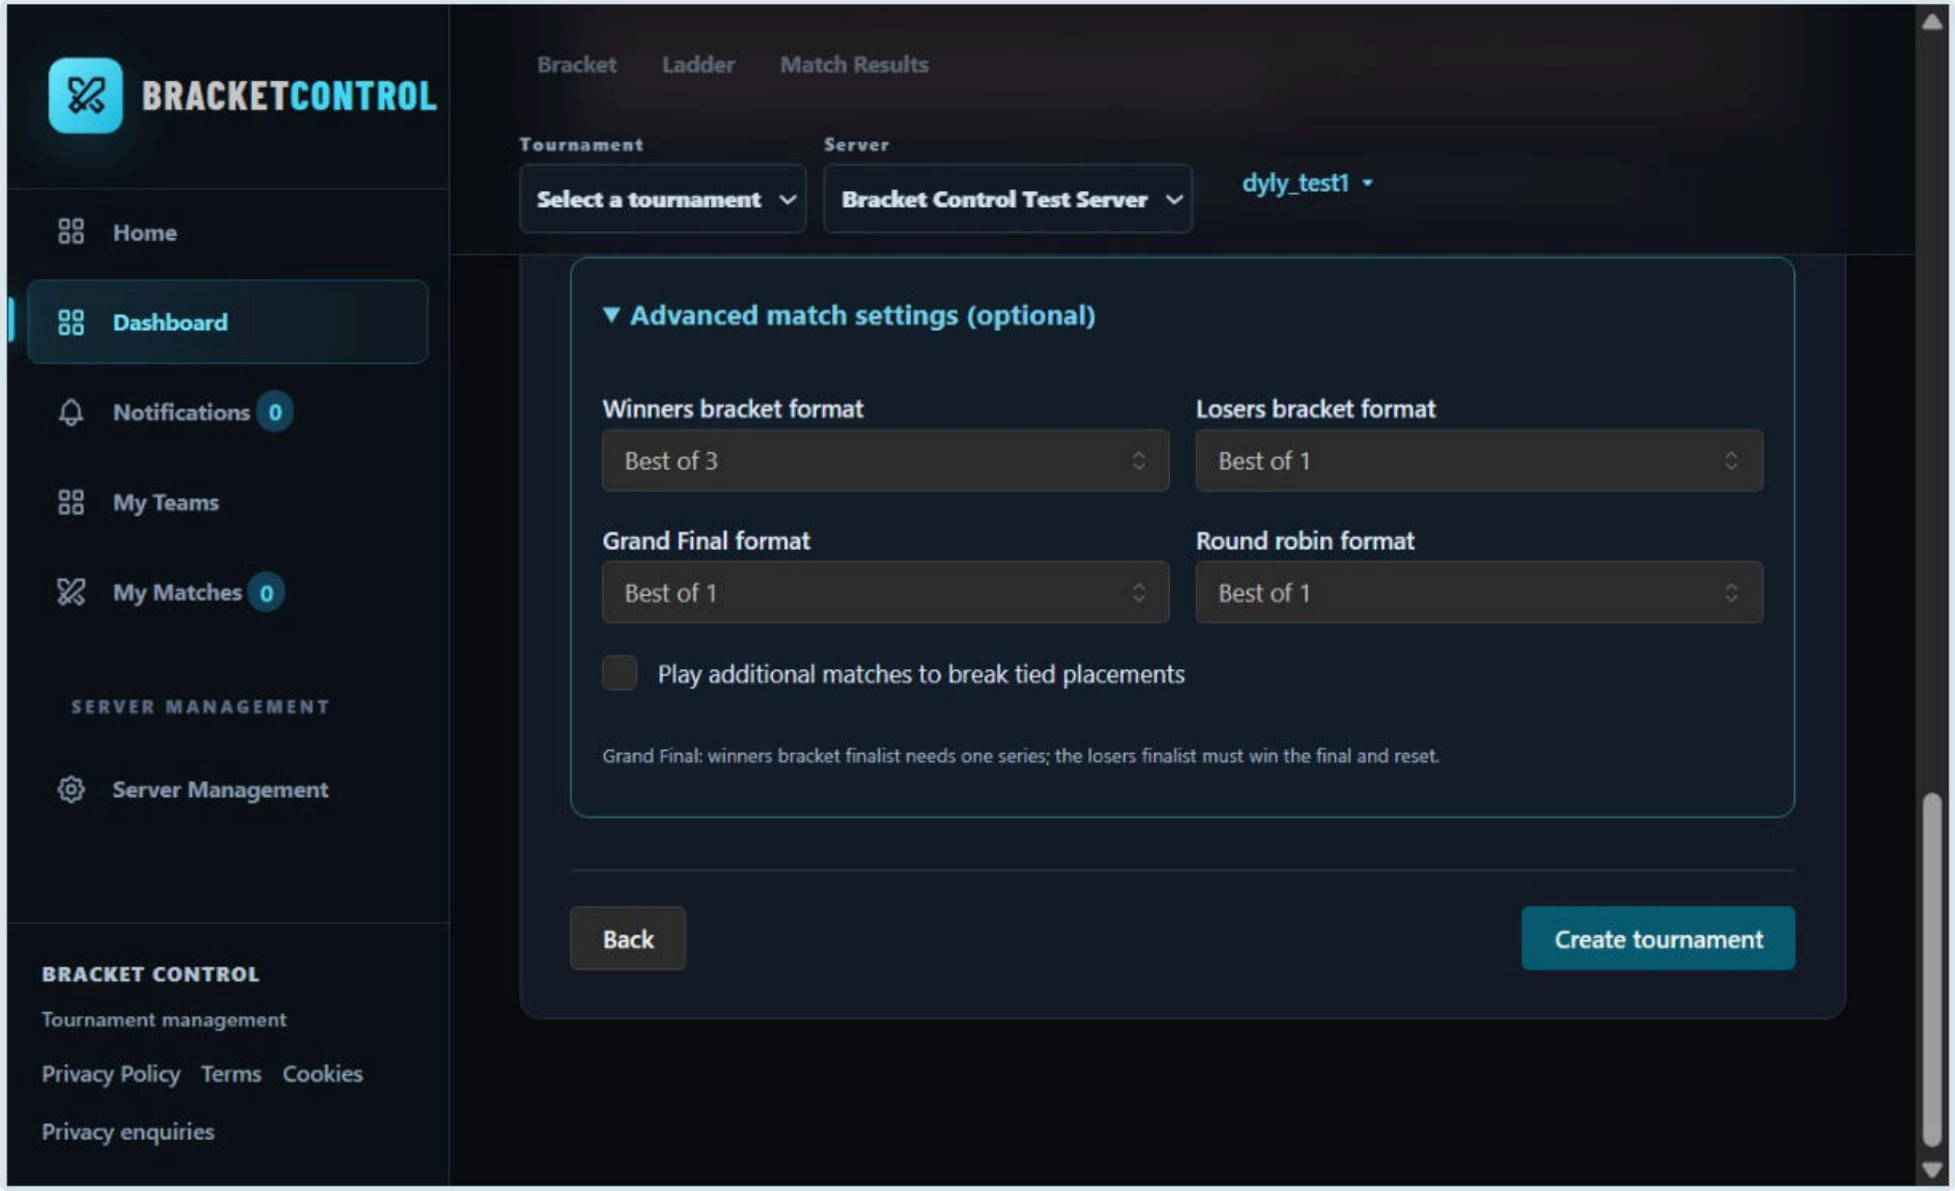

STEP 25

Review optional match settings

Open **Advanced match settings (optional)**. Set bracket match formats and, if required, **Play additional matches to break tied placements**.

STEP 26-27

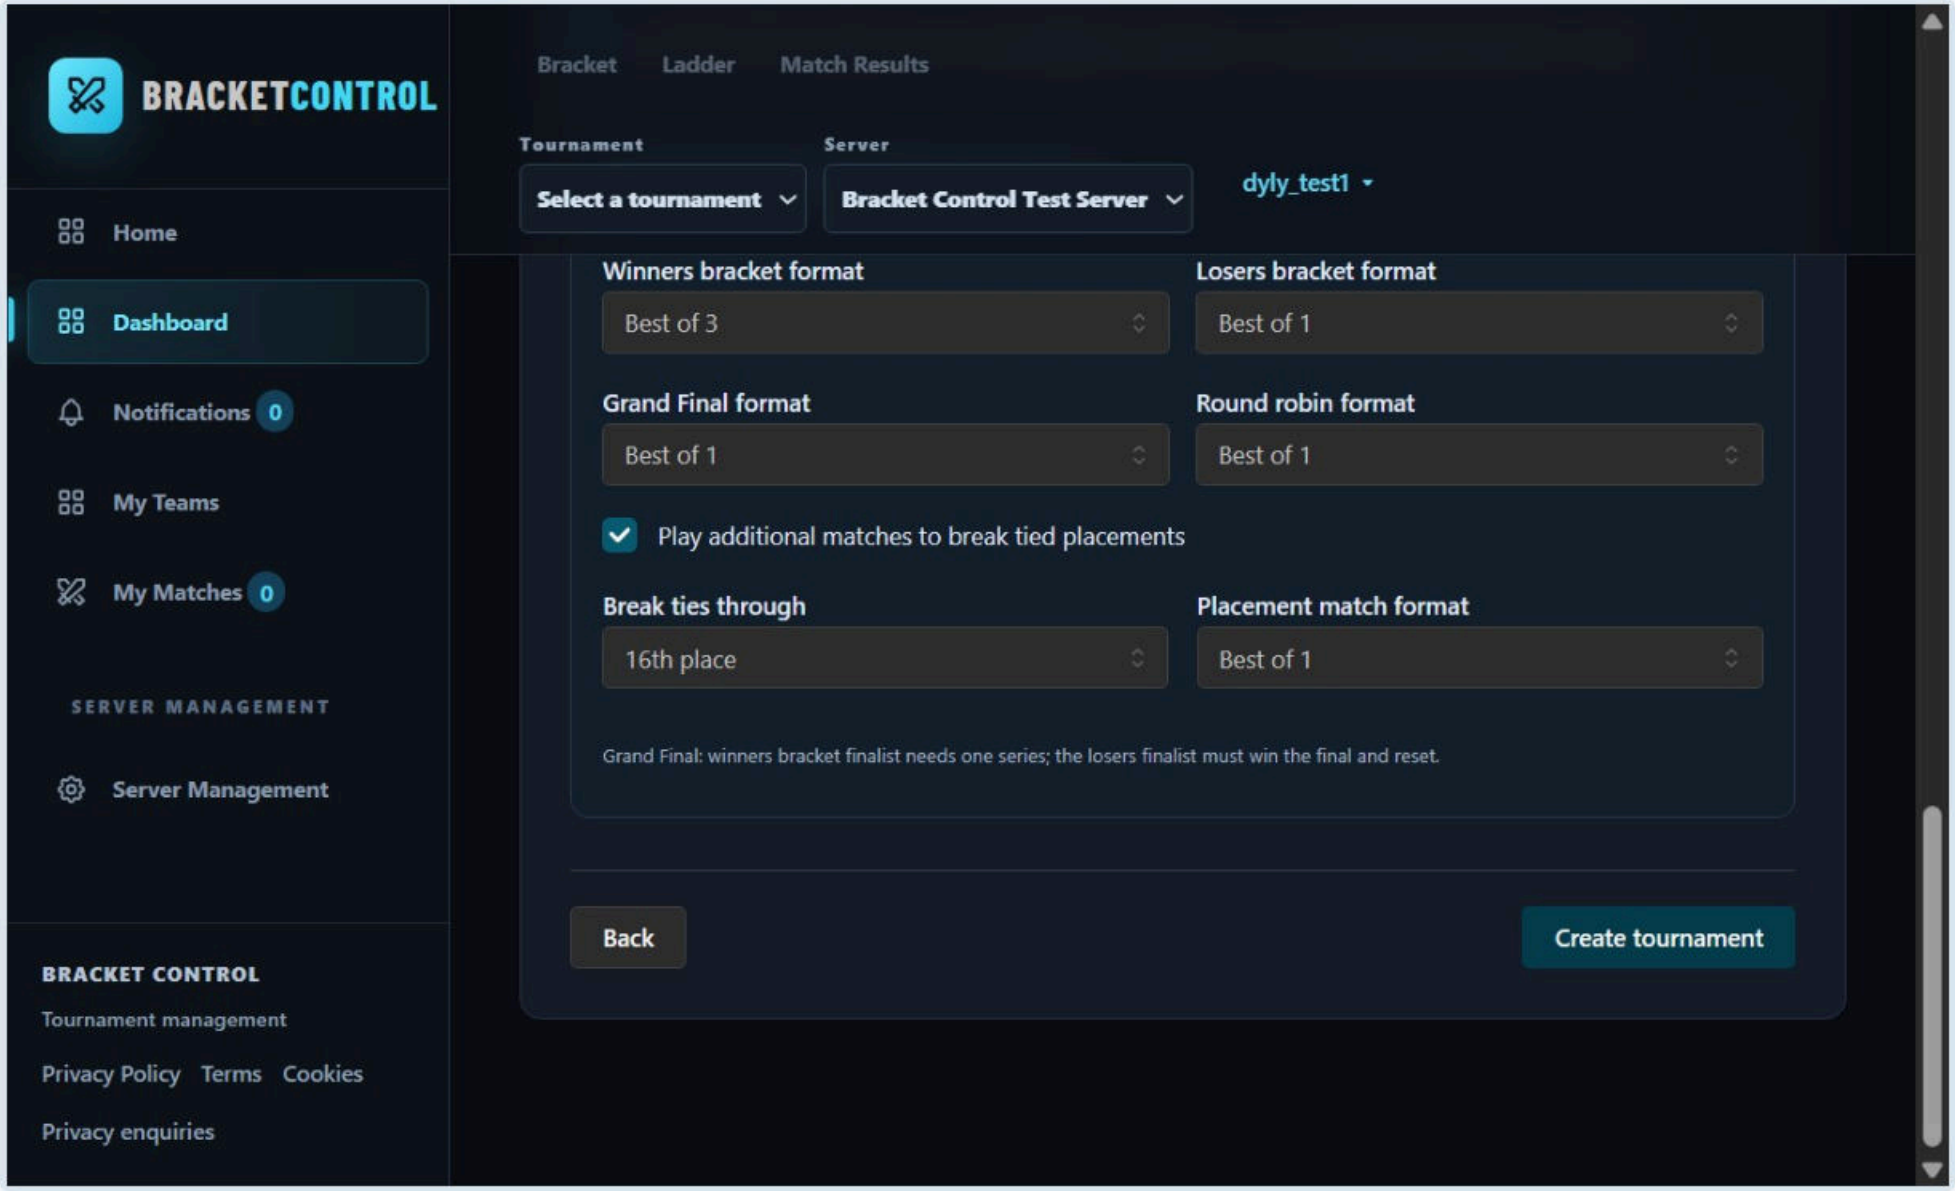

Confirm and create the tournament

On the final summary, make sure the permanent-rules acknowledgement is **checked**, verify the details, then select **Create tournament**.

STEP 28-29

The source Scribe repeats the checkbox in steps 25 and 28. Do not toggle it off if already selected.

Find the tournament on Dashboard

Select **Dashboard** to return to your tournament workspace and view the newly created event.

STEP 30
